1. To download and use Zalo software on your computer (PC, Laptop, Desktop), you can go to the Zalo App homepage at: <https://zalo.me/pc>, select the **Download Now** button to download Zalo software to your computer, then easily install it on your device.
1. In addition, you can also use the Zalo Web version without having to download and install complicatedly, learn more about how to log in to Zalo Web without a password here: [Log in to Zalo Web quickly without a password](#)

2. Instructions for downloading and installing Zalo software on smartphones

To download and use Zalo software on your smartphone, you can do the following:

1. For iOS version, you can go to the App Store and search for the keyword "Zalo" or "Zalo application" or "zalo app" to find the application or click **here** to download Zalo software to iOS phone:
<https://apps.apple.com/vn/app/zalo/id579523206>

1. For the Android version, you can go to the Google Play app store and search for similar keywords: "zalo" or "zalo app" or "download zalo" to download the app, or you can click **HERE** to download Zalo for Android phones: <https://play.google.com/store/apps/details?id=com.zing.zalo&hl=vi&gl=US>

3. Simple instructions for syncing Zalo messages between smartphones and computers (PC, Laptop, Desktop)

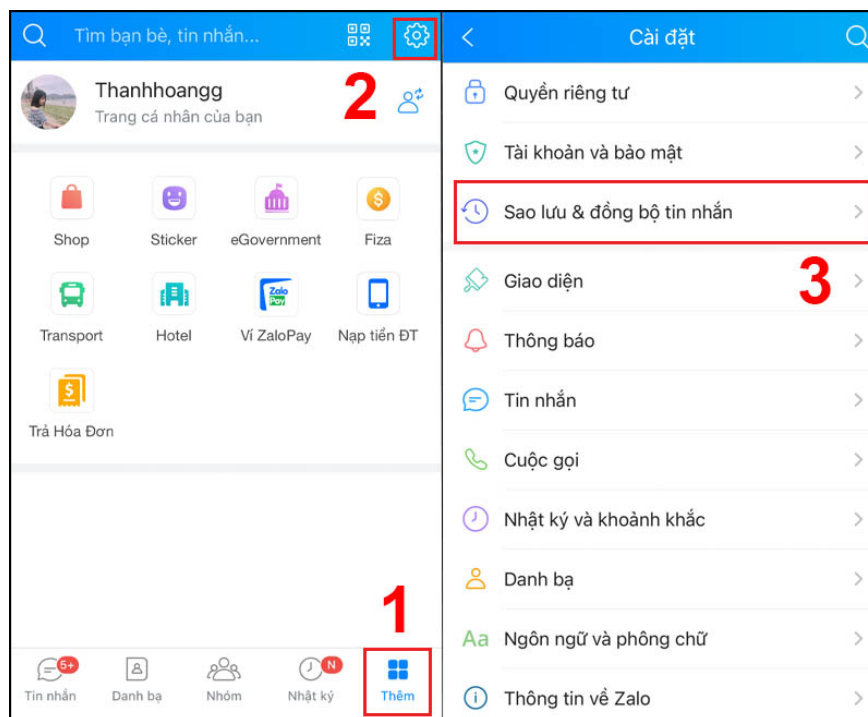

To be able to synchronize messages between smartphones and computers (PC, Laptop, Desktop), you need to do the following:

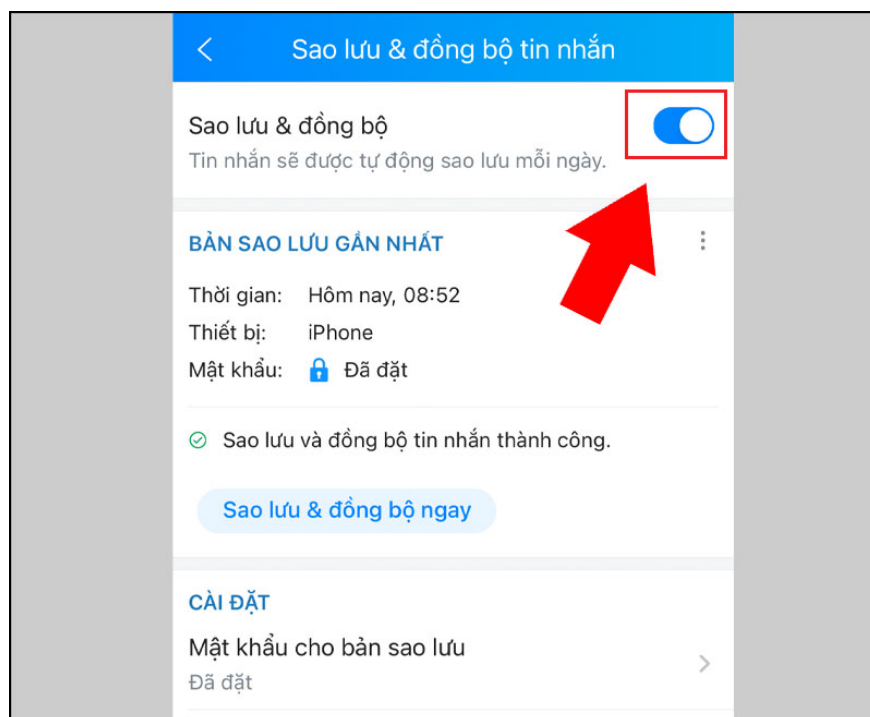

a) Instructions for synchronizing Zalo messages on smartphones

When you use another smartphone or just install Zalo App on your smartphone, the application will immediately ask you if you want to restore and synchronize messages from your old smartphone to your new one? You need to back up to synchronize messages on your old phone before restoring on your new smartphone. You can do it with HANOICOMPUTER after viewing the following instructions: (Applies to both Android and iOS smartphones)

1. On the Zalo interface on the old smartphone, select More -> Settings -> **Backup and Restore messages**

1. You wait a few seconds for the data to be backed up and saved to the system.

1. **When the message Backup message successful** appears --> select **Yes** or **No** to continue.
2. On the new smartphone, log in to your Zalo account and select **Backup and restore messages** --> Select **Restore messages** and wait.
3. As a result, you have retrieved messages from your old smartphone devices to your new smartphone device.

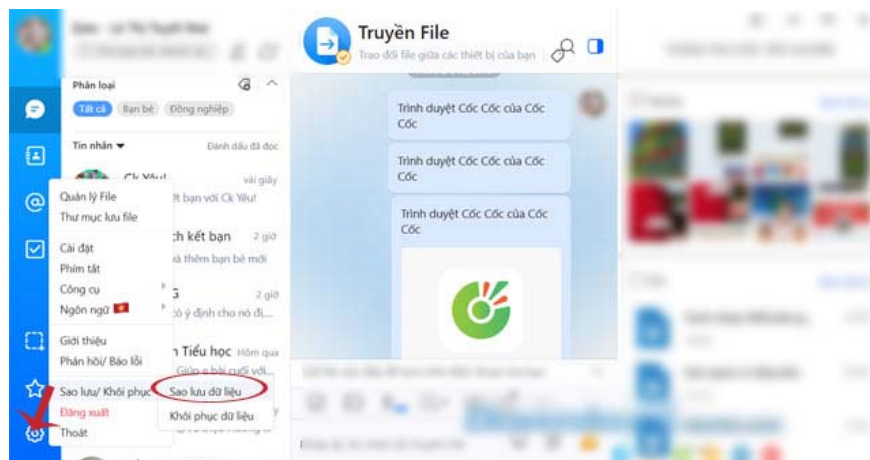

b) Sync Zalo messages on computer easily

With this method, you can synchronize Zalo Web messages or Zalo downloaded and installed on your computer. It also solves some cases where **Zalo Web** does not receive messages like on the phone or Zalo version installed on another computer. You can do the following steps:

1. First, you need to log in to **Zalo App** on your computer, select Continue to see the notification to synchronize Zalo messages from your phone to your computer. This notification will only appear once when logging in to Zalo. If you accidentally ignore it, you can log out of your account and log in again.

1. The system will send a notification to your smartphone confirming data synchronization to the newly logged-in computer via Zalo App, you need to select Agree to complete the process.

1. You wait a few minutes for the system to synchronize. With Zalo Web versions, you will not need to synchronize, but after logging in, your old messages will be displayed on your mobile device.

Note : You can also follow the instructions to easily recover deleted messages on Zalo to recover accidentally deleted Zalo messages. Above, HANOICOMPUTER has instructed you how to synchronize messages on smartphones and computer devices (PC/ Laptop/ Desktop), wish you success!
