### Must-try co-op games in Tabletop Simulator

#### Mistborn: House War

Based on the popular Mistborn novel by Brandon Sanderson, this 3-5 player game puts the player in the role of aristocrats in the city of Luthadel. Each leader of his own faction, must work together to solve the problems of the Final Empire, such as epidemics and social unrest.

However, unlike many other co-op games, Mistborn: House War doesn't have a single winner. While all players are working together to solve similar problems, they are also competing for favor from Lord Ruler.

And in the end, whoever has the most favors wins if the rebels are successfully suppressed. However, if the rebellion thrives, whoever gets the least favors wins, which adds an extra twist to this half-co-op game.

### **Warfighter: The Tactical Special Force Card Game**

In this 1-6 player card game, players will become squads of soldiers engaged in a variety of modern day missions. Warfighter also allows players to customize their soldiers for each situation, adapting the game to different playstyles.

Each mission provides a different experience and soldiers can also level up, gaining upgrades through combat. Gamers will get a real squad experience working together to complete missions and level up.

### **Mistfall**

In Mistfall, each player will take on the role of a completely unique fantasy hero in a 1-4 player card game that takes place in Valskyrr, a dark fantasy world full of monsters.

Since each player starts out as a different hero, with a different set of skills and abilities at his disposal, teamwork is key to success in the quest against the villainous Mist.

Mistfall also has the ability to change environments and random encounters with enemies that make each session a completely different experience. Getting to the top won't be easy for the heroes of Mistfall, but the experience is sure to be an exciting fantasy adventure.

## Darkest Night

In this 1-4 player dark fantasy game, the terrified Necromancer has taken over the kingdom and there are only a handful of heroes left to take him down. Each character has a unique playstyle, and gamers can upgrade their characters with equipment found throughout the ravaged kingdom.

Each session is a heart-pounding race against time as the villainous Necromancer takes over the kingdom.
