

Take a picture of 'selfie' style painting on Facebook Messenger

Prisma is a photo editing application that has caught the attention of many young people who like to take photos right after their debut. And we can edit Prisma-style photos right on Facebook Messenger.

Surely, you haven't forgotten the Prisma artwork editing application that created the fever just when it was launched. Offering a totally different style of photo art than other photo editing applications, Prisma helps users to create images that are Picasso-style art. Because of that, many manufacturers have added Prisma photo editing features, such as Telegram and now will be Facebook Messenger.

As soon as the user uses the app's built-in bot, we can optionally choose any image in the device or "take a selfie" and then edit it according to Prisma painting style. Your job is just to select a photo, select a filter and get the results in a moment. Together with the creative network administrator, your image in the tutorial below.

Edit Prisma photos on Facebook Messenger

First, update Facebook Messenger to the latest version using the link below.

1. Download Facebook Messenger for Android
2. Download Facebook Messenger for iOS

Step 1:

Soon, you open Facebook Messenger on the device. At the main interface, enter the search box from Icon8bot. Below will be the search results. Click **Icon8** to start using.

🔍 Tìm kiếm người và nhóm
