

TalkingPhotos, the application that helps your stills talk like a real person

Talking Photos is an application that has the ability to make still images that can be moved and spoken like a real person, enabling users to create videos that are quite fun or according to many people who are somewhat scary.

Talking Photos is an application that has the ability to make still images that can be moved and spoken like a real person, enabling users to create videos that are quite fun or according to many people who are somewhat scary.

With Talking Photos, users can pair gestures, face gestures and mouth parts into photos so that the characters in the picture can sing, grumble, laugh, do funny things and talk like the real thing. In addition, users can also add funny troll image stickers.

How to use Talking Photos

Step 1: Visit the link below to download the application to the device and install:

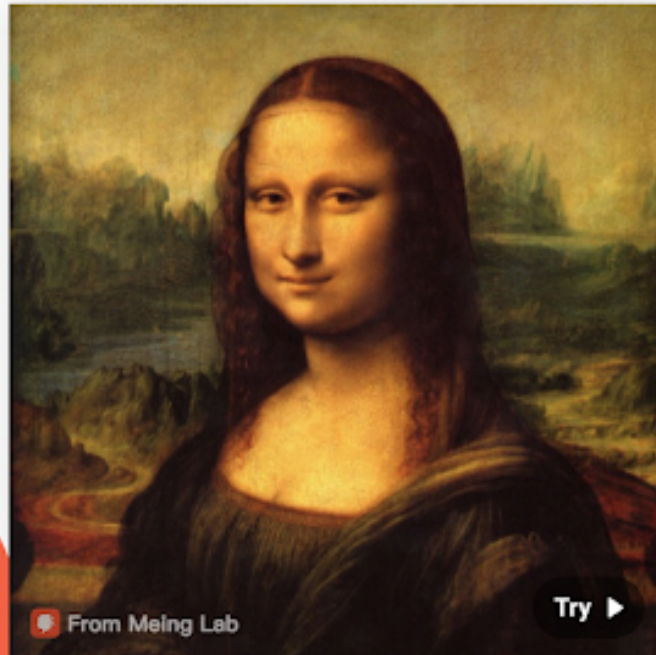

1. Talking Photos from Meing for Android
2. Talking Photos from Meing for IOS

Step 2: Launch the application and allow the program to access your photo library.

Step 3: Click Choose Photo to select images from the library. Then choose the word you want to say, choose the face expression you want to change.

Come alive with one touch

Incredible app that will bring any photo alive!
