

# Guide to the standard Targon TFT squad season 16

Targon TFT season 16 does not have its own race (traitless) but possesses outstanding power, with the ability to control, protect and deal stable damage.

The Targon lineup for season 16 of TFT focuses on champions forged by the stars, including Diana, Taric, Aurelion Sol, Leona, Zoe, and Aphelios. Targon has no trait but possesses superior power, with the ability to control, protect, and deal stable damage.

This is a strong lineup in the mid and late game, easy to deploy when leveling up to 6-8 to activate 6 Targon, and combined with Freljord or Invoker generals to optimize power.

## Targon TFT Season 16 Squad Overview

**Buff Summary:** 6 Targon - 3 Freljord - 2 Shaman - 1 Dragon

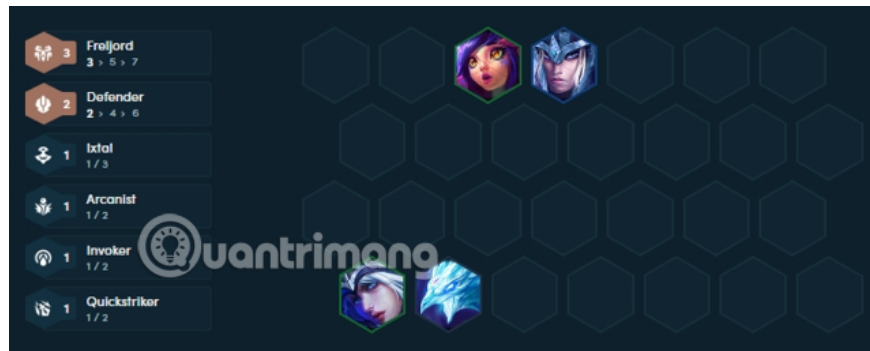

1. **Targon:** A champion forged by the stars, possessing superior power and easy to deploy in the late game.
2. **Aurelion Sol:** Main carry in late game, extremely strong area magic damage.
3. **Mage (Lissandra, Anivia):** Supports magical skills, increases control ability.
4. **Freljord:** Provides tankiness, backline protection, and increased stun effects.
5. **Sentinel:** Leona, Taric and Braum make a tanky frontline, protecting the carry.
6. **Core:** Aurelion Sol, Diana, Taric, Leona, Zoe, Aphelios, Braum, Anivia.

The 6 Targon lineup above combines with Freljord to increase damage and resistance from the ice tower. In addition, Lissandra and Braum are very useful in the late game, Anivia can be the main damage dealer from early to mid game.

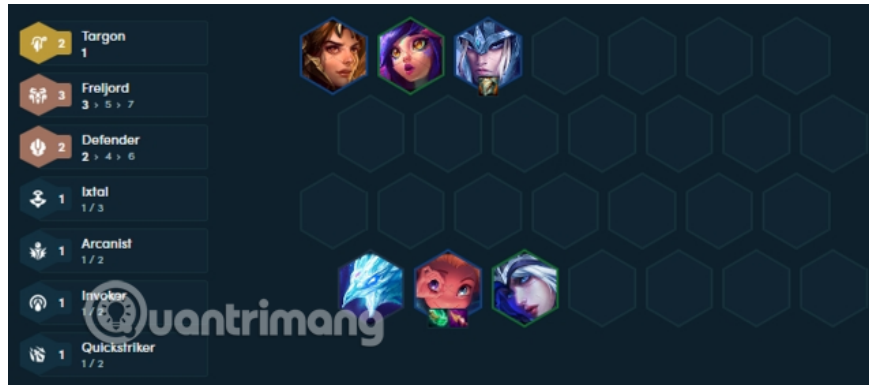

## Targon Team Guide

### Early Game

1. Start with 2–3 Freljords + 1 Sentinel (Sejuani) and 1 Extreme Haste (Ashe) to keep your win streak going.
2. Temporarily build items for Ashe or Sejuani.
3. Slow roll at level 4–5 if needed to upgrade to 2 star general.
4. Priority equipment: Giant's Belt, Chain Vest for front row, BF Sword and Wooden Bow for back row.

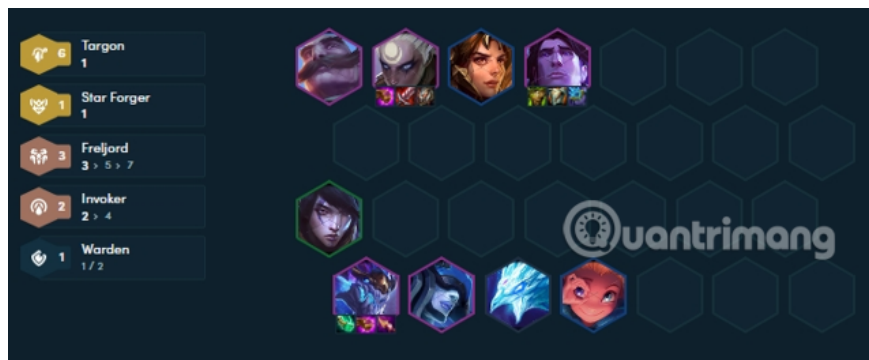

### Mid-game

1. At level 5-6, start adding Targon champions including Leona, Zoe, if you find Taric then you're lucky.
2. Get a 4–5 Targon combo on the field to unlock Diana with 2-star Leona and 3 items for her.
3. Maintain stable gold, roll lightly to upgrade main force or tank

**Recommended items:** Gemstone Gloves, Bloodthirster, Titan's Power for Diana. For Aurelion Sol: Gemstone Gloves, Nashor's Tooth, Spear of Shojin. For Taric/Leona: Blood Armor, Gargoyle Stoneplate, Thunderbow.

## End of game

Complete the team with 6 Targons: Aurelion Sol, Diana, Taric, Leona, Zoe, Aphelios.

1. **Main Carry:** Diana and Aurelion Sol, deal AoE magic damage.
2. **Tank line:** Leona, Taric, Braum for resistance and control.
3. **Support:** Zoe holds items for the carry.

## Recommended equipment

1. **Aurelion Sol:** Gemstone Gloves, Nashor's Tooth, Spear of Shojin.
2. **Diana:** Gem Gauntlet, Blood Sword, Titan's Power.
3. **Taric:** Ionic Thunderbolt, Gargoyle Stoneplate, Warmog's Armor.
4. **Leona / Braum:** Warmog's Armor, Gargoyle Stoneplate, Cape of Flame.
5. **Aphelios:** Gemstone Gauntlets, Nashor's Tooth, Bloodthirster

## Tips when playing Targon team

1. Slow roll at level 6-7 to get a 3 star carry, possibly Zoe and Leona.
2. The main carry should be placed in a safe position, facing the enemy team's main force.
3. Targon's tank line absorbs damage and crowd control, creating space for Diana/Aurelion Sol to deal damage.
4. Use Zoe as an item stand until Aurelion Sol appears.
5. Level up to 8-9 to add Aphelios or Diana, maximizing late game power.

## Why you should choose Targon squad season 16

1. Strong protection ability, tanky and causes control.
2. Main carry is strong in late game, area damage.
3. Easy to deploy with slow roll, flexible combination with Freljord or Sorcerer
4. Stable meta, suitable for players who like to control the game and snowball power over time.

It can be said that Targon does not have clan effects like other clans of other lands, but in return, Targon generals all possess unique skills and have more than 1 effect.
