

Teams getting a lot of nerfs in the Arena of Truth 9.24

Here is a list of strong roster in previous versions that have been nerfed in DTCL 9.24, accompanied by weak buffs and teams that have been changed in the Arena of Truth 9.24 this time.

Arena of Truth 9.24 has officially come to the gamers, information about generals, systems and elements nerfed and buffed probably gamers already know. And of course, if the champion and clan are nerfed, the squad related to that champion or clan will also be nerfed, along with a change in how to build DTCL 9.24

Conversely, some buffed generals and clans will also make some squads with land back to life. In the article below are some of the buffed and nerfed squads in DTCL 9.24, along with some edited squads.

1. Details of the updated Arena of Truth 9.24
2. How to use emoticons in the Arena of Truth
3. Guide to accumulating and spending money effectively in the Arena of Truth season 2

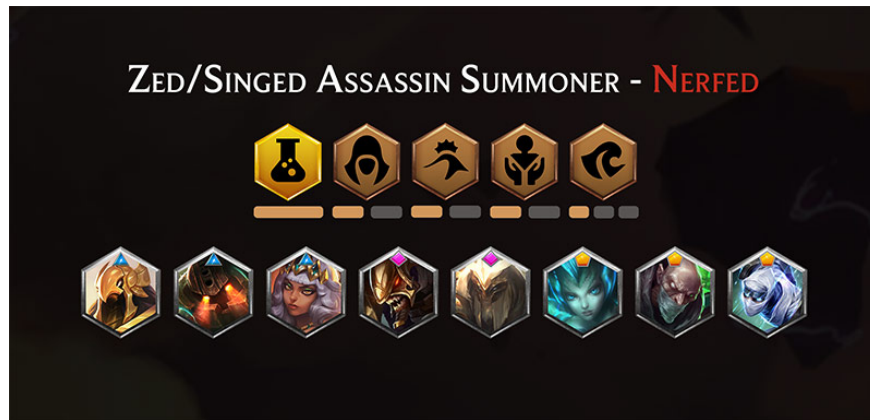

Lineup for strength in the Arena of Truth 9.24

Water Summoner's lineup

Brand's ability damage has been reduced, along with the Water Element's buff effect has also been nerfed, making the squad's power greatly reduced. Along with that, the tanker in this squad is not enough dame to finish the enemy line. So some squads like Assassin, Gunner will be easier to deal with this squad.

Assassin squad - Summon

A pretty expensive squad because there are no champions below 3 gold. How much you need to level up early to increase the likelihood of appearing 5 gold generals. Singed just got nerfed again, though not much, but it will make it more difficult for the team at the end of the game. If previously Singed can survive thanks to Ma Vu, now he will be difficult to live when in DTCL 9.24 this equipment has also been nerfed.

Forest Hyper Roll Lineup (Heavy Nerd)

Hyper Roll Everywhere, hyper roll people, hyper roll houses, everywhere you see hyper roll in the Arena of Truth 9.23 but in 9.24 will be different when all three gold 1 generals Maokai, Ivern and Crocodile have received nerf in this version.

This reduction in power is quite reasonable when there are many players in the game choose Hyper Roll. No matter how badly you play, this tactic will easily reach the Top 4.

The lineup was buffed and changed in the Arena of Truth 9.24

Assassin Form

In previous versions, the Swordsmen had very little ground except Master Yi because of the Dark buff. They are easily blocked by Hyper Roll squads or a lot of other squads, but the heroes in the DTCL 9.24 have been buffed so make sure the Sword Guests will be a good choice in this version when there is no team Which one is more buffalo or maybe better than their dame?

Lineup - Water - Wizards

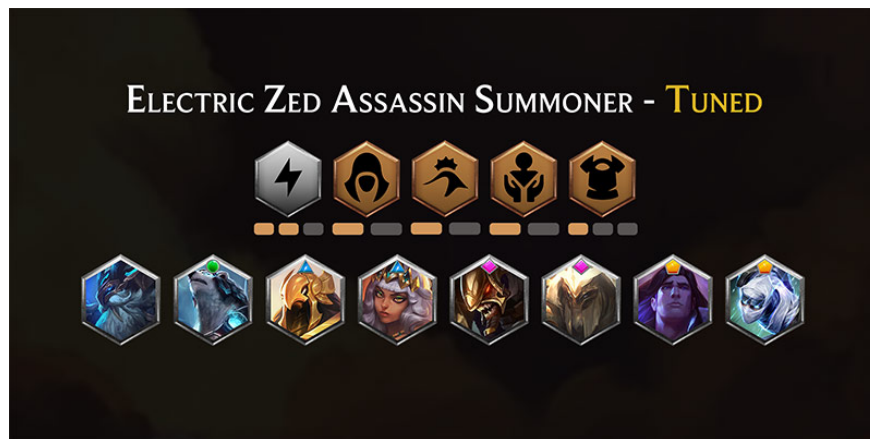

Although this squad still has many Water generals, in return, the Earth will help the heroes in the game better resist. In addition, the strong squads have now been nerfed so this squad will have more time to build and safer teams.

Assassin - Protection - Lightning squad

This formation has a good resistance because there are many Guardians. Lightning element has also been strengthened, so this squad is both good at defense and easy to build. You will only struggle in the beginning because this squad is quite lacking damage when newly built from low levels.

Assassin squad - Summon

The generals in this squad have been buffed strongly with Lightning buffs, which will increase the damage significantly. It is also possible to see this squad getting a lighter buff, but if you encounter Team 6 Fire and Sword, the fighting may be a bit difficult.

Water - Guard formation

There are 4 Guardians in this formation, so they will withstand quite well, not to mention the buff of the Earth will increase armor so the level of protection will be increased. However, you have to wait a long time to find Taric, but this formation is quite easy to build so it will be an option for those who want to pick wizards in the first place.

Above are some nerfed squads and buffs in the Arena of Truth 9.24. You can build according to the generals above or change according to what you get, just depending on that improvisation only.
