

Test of technology terminology - Part 12

Welcome to the next section of the Technological Termination test series on TipsMake.com! Wish you achieve high on the test!

1. 1. What graphical term describes the transparency level of an image?

1. Saturation
2. Opacity (Opacity, transparency)
3. Exposure
4. Hue (Tones)

The correct answer is "Opacity".

2. 2. How many zebibyte in a yobibyte?

1. 100
2. 256
3. 512
4. 1,024

The correct answer is '512'.

3. 3. What synonym for FILO is it?

1. FIFO
2. LIFO
3. GIGO
4. GPIO

The correct answer is 'LIFO'.

4. 4. What kind of component is a memory module?

1. RAM
2. HDD
3. SDD
4. GPU

The correct answer is 'RAM'.

5. 5. What social networking platforms were Facebook acquired in 2012?

1. Twitter
2. Snapchat
3. Instagram
4. Periscope

The correct answer is 'Instagram'.

6. 6. What kind of files can be encoded with codecs?

1. Video file
2. Text documents
3. Spreadsheet
4. Executable file

The correct answer is 'Video file'.

7. 7. What are the two types of SRAM and EEPROM?

1. VRAM
2. NVRAM
3. RDRAM
4. SDRAM

The correct answer is 'NVRAM'.

8. 8. What is the HTML content determined by the elements?
1. Tag (tags)
 2. Label
 3. Badge
 4. Placeholder

The correct answer is 'Tag (tags)'.

9. 9. Which interface element will show a blinking cursor when you click inside?
1. Notification box
 2. Dialog box
 3. Text box
 4. Inbox

The correct answer is 'Text box'.

10. 10. Create videos that can play from a 3D image called?
1. Manufacturing
 2. Simulation
 3. Storage
 4. Render graphics

The correct answer is 'Rendering graphics'.

11. 11. Which unit of measurement is equivalent to 1,000,000,000 bytes?
1. Megabyte
 2. Gigabyte
 3. Terabyte
 4. Petabyte

The correct answer is 'Gigabyte'.

12. 12. In Windows, what does the .EXE file extension stand for?
1. Executable
 2. Excel
 3. Ex-Encoded
 4. Exit-Edit

The correct answer is 'Executable'.

13. 13. What kind of device is used to digitize signals?
1. DAC
 2. ADC
 3. KVM
 4. GPU

The correct answer is 'ADC'.

14. 14. Which of the following best describes the CPU register?
1. This is a temporary storage area integrated into the CPU.
 2. It is the bridge between the CPU and GPU.
 3. It is RAM connected to the same motherboard as the CPU.
 4. This is the firmware for upgrading the CPU.

The correct answer is 'This is a temporary storage area integrated into the CPU'.

15. 15. Which data type can only store predefined values?
1. Integer

2. String
3. Enum
4. Array

The correct answer is 'Enum'.

16. 16. What kind of monitor is Sony Trinitron used for?
1. CRT
 2. LCD
 3. OLED
 4. QLED

The correct answer is 'CRT'.

17. 17. What type of users use the IDE on a regular basis?
1. Graphic designer
 2. Content producer
 3. Software developer
 4. Video editor

The correct answer is 'Software Developer'.

18. 18. With what operating system does Apple remove "Mac" from "Mac OS X"?
1. Snow Leopard
 2. Mountain Lion
 3. Mavericks
 4. El Capitan

The correct answer is 'Mountain Lion'.

19. 19. What is manual evaluation of source code?
1. Soft debugging (finding the error or cause of the error)
 2. Hard copying (create hard copies, physical copies)
 3. Pseudo-coding (implementation of an algorithm in the form of comments and informative text written in English)
 4. Desk checking (manual testing method that programmers can use to verify code and algorithm logic before launching the program)

The correct answer is 'Desk checking (manual testing method that programmers can use to verify code and algorithmic logic before launching the program)'.

20. 20. What is the purpose of SRM?
1. To manage large amounts of data.
 2. To secure a large local area network.
 3. To extend wireless signals over a large area.
 4. To power a large number of devices.

The correct answer is 'To manage large amounts of data'.

21. 21. What term describes the arrangement of multiple cables?
1. Cable layout
 2. Cable gridding
 3. Cable management
 4. Cable design

The correct answer is 'Cable management'.

22. 22. Which statement about web beacon is wrong?
1. They are usually implemented as 1x1 pixel images.
 2. They record when loaded from a web page.
 3. They notify the user whenever it is loaded.
 4. They are used in email marketing.

The correct answer 'They notify the user every time it loads'.

23. 23. What kind of order does Telnet support?

1. Unix
2. DOS
3. AppleScript
4. ActionScript

The correct answer is 'Unix'.

24. 24. What kind of program error is causing undesirable results at run time?

1. Syntax error
2. Validation error
3. Compiler error
4. Logic error

The correct answer is 'Logic error'.

25. 25. What is the term computer science referring to shortening a value?

1. Parse
2. Append data (Append)
3. Truncate data (Truncate)
4. Pairing programs (Concatenate)

The correct answer is 'Truncate'.

26. 26. Which of the following is not considered a volume?

1. HDD
2. SSD
3. DVD
4. RAM

The correct answer is 'RAM'.

27. 27. Which file system is SMB and AFP currently deploying?

1. FAT
2. NTFS
3. DFS
4. APFS

The correct answer is 'DFS'.

28. 28. What kind of file is GIF?

1. Picture
2. Audio file
3. Presentation file
4. Spreadsheet

The correct answer is 'Images'.

29. 29. What did Apple's Rosetta technology do?

1. It allows Mac games to be ported to iOS.
2. It allows users to have multiple desktops with a single screen.
3. It allows PowerPC programs to run on Intel processors.
4. It allows Mac users to install and run Windows.

The correct answer 'It allows PowerPC programs to run on Intel processors.'.

30. 30. What kind of printer spews drops of ink onto a sheet of paper?

1. Laser printers
2. Inkjet printer
3. Dot matrix printers
4. Ribbon printer

The correct answer is 'Inkjet printer'.

You finished reading the article "**Test of technology terminology - Part 12**" edited by the [TipsMake](#) team. We hope this article has provided you with many useful tech tips and tricks.
