

# Test of technology terminology - Part 13

Welcome back to the TipsMake.com Technology Termination test series. Hope you find yourself interesting things!

1. 1. What kind of components can add a USB port to the computer?

1. eGPU
2. SSD
3. Memory module
4. Expansion card (Expansion card)

The correct answer is 'Expansion card'.

2. 2. Which of the following industries is not considered IT?

1. Software Development
2. IC manufacturing
3. Make film
4. Network administrator

The correct answer is 'Film Production'.

3. 3. How many nanometers are there in a micron?

1. ten
2. 100
3. 1,000
4. 1 million

The correct answer is '1,000'.

4. 4. How many pins does the VGA monitor connector have?

1. 5
2. 8
3. 15
4. 22

The correct answer is '15'.

5. 5. What do the letters on the "Esc" key stand for?

1. Escalate
2. Escribe
3. Escrow
4. Escape

The correct answer is 'Escape'.

6. 6. What size can a 32x32 pixel icon be measured in?

1. Kilobyte
2. Megabyte
3. Gigabyte
4. Terabyte

The correct answer is 'Kilobyte'.

7. 7. Which of the following is the latest Windows development platform?

1. UWP
2. VCL
3. WPF
4. Winforms

The correct answer is 'UWP'.

8. 8. What services does Google Drive provide?
1. Online storage
  2. Compress local memory
  3. Map and directions
  4. Drive automatically

The correct answer is 'Online storage'.

9. 9. Which term describes the relationship between file extension and file type?
1. File format
  2. File system
  3. File service
  4. File association

The correct answer is 'File association'.

10. 10. What type of network is the largest?
1. CAN
  2. LAN
  3. MAN
  4. PAN

The correct answer is 'MAN'.

11. 11. Which of the following is the type of signal used for mobile phone calls?
1. CDN
  2. CDMA
  3. CDFS
  4. CDRW

The correct answer is 'CDMA'.

12. 12. Which of the following best describes the n-key rollover?
1. It allows any number of keys to be pressed and recorded at the same time.
  2. It allows the numeric keypad to be used as an arrow key.
  3. It assigns system commands to the Fn keys.
  4. It allows a single keyboard to be used for any language.

The correct answer 'It allows any number of keys to be pressed and recorded at the same time'.

13. 13. Is the typing speed measured in \_\_\_\_\_ per minute?
1. Number of keycap (keys on keyboard)
  2. Number of keystrokes
  3. Keychain number (keychain)
  4. Number of keyframe

The correct answer is 'Number of keystrokes'.

14. 14. "Smart refrigerator" is an example of?
1. Access point
  2. Brouter
  3. LAN
  4. Internet of things

The correct answer is 'Internet of things'.

15. 15. Viruses can also be considered as what?
1. Shareware

2. Freeware
3. Bloatware
4. Malware

The correct answer is 'Malware'.

16. 16. Which of the following provides network monitoring and device detection?
1. NAT
  2. NMS
  3. NSP
  4. NUI

The correct answer is 'NMS'.

17. 17. Which of the following is not a namespace example?
1. A top level domain
  2. Windows file path
  3. Image file format
  4. XML reference to an external URI

The correct answer is 'Image file format'.

18. 18. Which of the following is the most important for graphics processing?
1. VRAM
  2. ROM
  3. Flash memory
  4. USB port

The correct answer is 'VRAM'.

19. 19. What kind of printer does not print on paper?
1. Inkjet printer
  2. Dot matrix printer (Dot-matrix)
  3. Laser printers
  4. 3D printer

The correct answer is '3D printer'.

20. 20. Is the university network an example of?
1. CAN
  2. PAN
  3. WAN
  4. SAN

The correct answer is 'CAN'.

21. 21. What type of storage device is firmware?
1. RAM
  2. ROM
  3. SSD
  4. HDD

The correct answer is 'ROM'.

22. 22. Which of the following is a statement about an MBR hard disk?
1. It contains the code used to start the computer's boot sequence.
  2. It is almost double the capacity of the storage device.
  3. It acts as a buffer for incoming and outgoing data.
  4. It notifies users when the hard drive is damaged.

The correct answer 'It contains the code used to start the boot sequence of the computer'.

23. 23. Which of the following best describes a Motion Tween?
1. It zooms in and / or moves slowly in a certain direction on the still image.
  2. It speeds up or slows down Live Action video.

3. It changes the size and / or shape of an object over time.
4. It adds background effects to make the photo look like a moving still image.

The correct answer is 'It changes the size and / or shape of an object over time'.

24. 24. What kind of device is a CD burner?
1. Hard Drive
  2. Optical drive
  3. SSD drive
  4. Tape drive

The correct answer is 'Optical Drive'.

25. 25. Which Windows function key is often used to execute the "Refresh" command?
1. F1
  2. F3
  3. F5
  4. F7

The correct answer is 'F5'.

26. 26. What does a navigation bar always contain?
1. JavaScript
  2. Picture
  3. Link
  4. Animations

The correct answer is 'Links'.

27. 27. Which social networking services are related to "tweeting?"
1. Facebook
  2. Twitter
  3. Instagram
  4. Snapchat

The correct answer is 'Twitter'.

28. 28. What does the Classroom Performance System and the virtual learning environment facilitate?
1. E-commerce
  2. E-reading
  3. Email
  4. E-learning

The correct answer is 'E-learning'.

29. 29. Which of the following is the Windows API?
1. DirectX
  2. Xcode
  3. OS X
  4. X11

The correct answer is 'DirectX'.

30. 30. Which of the following describes good manners on the Internet?
1. Netizens (Netizen)
  2. Internet etiquette (Netiquette)
  3. Internet neutrality
  4. Network topology

The correct answer is 'Internet communication etiquette (Netiquette)'.

31. 31. How many characters is the file name long or supports the "LFN" standard?
1. thirty first
  2. 63
  3. 127

4. 255

The correct answer is '255'.
