1. It is a series of security questions used for authentication
2. This is a group of computers that run automated scripts
3. It is a firewall that prevents DDOS attacks
4. This is a network that includes both wired and wireless devices

The correct answer is 'This is a group of computers that run automated scripts.'

14. **14. How many Shift keys are there on the standard keyboard?**

1. first
2. 2
3. 3
4. 4

The correct answer is '2'.

15. **15. Which of the following is an integer?**

1. -20
2. 6.5
3. first
4. $\frac{2}{3}$

The correct answer is '1'.

16. **16. What is the most common data medium used by WPANs?**

1. Ethernet
2. Coaxial Cable
3. Bluetooth
4. WIFI

The correct answer is 'Bluetooth'.

17. **17. What type of memory is DDR RAM?**

1. SRAM
2. PRAM
3. SDRAM
4. RDRAM

The correct answer is 'SDRAM'.

18. **18. Which of the following best describes the "runtime"?**

1. It is the time between when the program loads and the time it exits.
2. It is about time the computer boots up
3. That is the amount of time it takes to open a program
4. It is the time a computer has run since the last reboot

The correct answer is 'It is the time between when the program loads and the time it exits.'.

19. **19. Which adjectives do not describe CD-ROM media?**

1. Quang
2. Readable
3. Can record
4. Removable

The correct answer is 'writable'.

20. **20. The term "UX" is a common abbreviation for which phrase?**

1. User interface
2. User experience
3. User X-factor
4. User example

The correct answer is 'User experience'.

21. **21. Which of the following best describes the greenfield software program?**

1. It is not designed for a specific industry
2. It was developed for educational purposes
3. It is a new program built from scratch
4. It contains open source components

The correct answer is 'It is a new program built from scratch.'

22. **22. What is the other name of a software program that does not require a paid license?**

1. Commercial software
2. In-depth software (Vertical software)
3. Vaporware (software published but not yet and will never be available)

4. Free software

The correct answer is 'Free software'.

23. **23. Which of the following is not part of a software tool chain?**

1. Installer
2. Submission process
3. Assembler
4. The compiler

The correct answer is 'Installer'.

24. **24. Which of the following is a barcode?**

1. QR code
2. UPC
3. RFID
4. Beacon

The correct answer is 'UPC'.

25. **25. What is an image on a computer screen?**

1. Graphics
2. Gray scale
3. Goodput (Speed upon arrival of the user)
4. Gnutella

The correct answer is 'Graphics'.

26. **26. What are errors in computer code collectively?**

1. Bit
2. Byte
3. Bot
4. Bug

The correct answer is 'Bug'.

27. **27. What kind of data is NTP used to retrieve?**

1. Weather
2. Time
3. News
4. Financial data

The correct answer is 'Time'.

28. **28. Is virtual classroom an example of?**

1. VLB
2. VLE
3. VPS

4. VPN

The correct answer is 'VLE'.

29. **29. What type of screen has the darkest level?**

1. LED
2. OLED
3. CRT
4. Plasma

The correct answer is 'OLED'.

30. **30. Machine learning is a subset of what technology?**

1. Artificial intelligence
2. Virtualization
3. Emulator
4. Cloud computing

The correct answer is 'Artificial Intelligence'.
