

# Test of technology terminology - Part 6

Use your technological knowledge with the 31-question quiz below.

1. Question 1: What is the term used instead of username (user)?
  1. Password
  2. Passphrase (Password)
  3. Domain name
  4. Handle (Username in chat rooms, web forums, social networks)
2. Question 2: Which of the following helps you not to lose data?
  1. Expensive computer
  2. Protective case
  3. Good memory
  4. Reliable backup
3. Question 3: What is the directory represented by image?
  1. Folder
  2. File
  3. Application
  4. Library
4. Question 4: What is the reason for a mirrored volume (hard drive stores exact copies of data of another hard drive)?
  1. Excess data
  2. Application compatible
  3. Increase CPU performance
  4. Increase audio output
5. Question 5: What is a subset of DBMS?
  1. RDBMS
  2. CDFS
  3. BPS
  4. DFS
6. Question 6: What information is loaded for an active program to be called?
  1. Pad data
  2. Pile data
  3. Seed data (Initial data provided to the system)
  4. Bridge data
7. Question 7: What is the aspect ratio of the 4K screen?
  1. 3: 2
  2. 4: 3
  3. 8: 5
  4. 16: 9
8. Q8: Cray-1 and Blue Gene are examples of what kind of computer?
  1. Microcomputer (Microcomputer)

2. Laptop computers
  3. Desktop computer (Desktop computer)
  4. Supercomputer
9. Question 9: What kind of data are WAIS designed to search?
1. Picture
  2. Sound
  3. Video
  4. Document
10. Question 10: Which of the following devices is likely to have an eSATA port?
1. Memory module
  2. Video card
  3. External Hard Drive
  4. Printer
11. Question 11: The worksheet includes columns and what?
1. School
  2. Class
  3. Line
  4. Board
12. Q12: Cocoa for macOS and .NET for Windows are examples of what?
1. Application
  2. Framework
  3. Web portal
  4. Script
13. Question 13: What data is stored in the storage device when the system memory runs out?
1. Vaporware (Software or hardware published to the public but never really made)
  2. Virtual memory
  3. Visual basic (Programming languages ??for event-driven and integrated development environment)
  4. Version control (Version control)
14. Question 14: What storage unit is between pebibytes and zebibytes?
1. Mebibytes
  2. Tebibytes
  3. Tebibytes
  4. Yobibytes
15. Q15: What are the different types of operating systems AIS, BSD and Solaris?
1. Android
  2. macOS
  3. Windows
  4. Unix
16. Question 16: Communication that data runs two-way but not concurrently called?
1. Single-duplex
  2. Dual-duplex
  3. Half-duplex (Communicates in two directions but only one way at a time)
  4. Full-duplex (Simultaneous two-way communication)
17. Question 17: Which of the following is designed to communicate with others online?
1. Xamarin
  2. ICQ
  3. Dreamweaver
  4. iTunes
18. Question 18: What does the website include?

1. Web platform
  2. Web portal
  3. Webpage
  4. Web mail
19. Question 19: What features provide search suggestions when typing?
1. Autocorrect (Automatically correct misspelled words)
  2. Autocomplete (Autocomplete)
  3. Autofill (Autofill)
  4. Autocheck (Auto-check)
20. Question 20: What kind of interface allows simple CPU replacement?
1. PCI
  2. AGP
  3. ZIF
  4. ISA
21. Question 21: What technology is designed to prevent bots from submitting online forms?
1. MySQL
  2. Captcha
  3. Autofill
  4. Cookies
22. Question 22: What kind of image is LPI commonly used to measure?
1. Half tones are printed
  2. Vector image printed
  3. Digital bitmap image
  4. Digital vector image
23. Question 23: What is the purpose of Phishing?
1. Find a free Internet connection
  2. Steals personal information
  3. Identify unsafe websites
  4. Discover unused Internet gateways
24. Question 24: What kind of computer is designed specifically for heavy computing on processor and large capacity?
1. Laptop
  2. Tablet
  3. Desktop
  4. Mainframe (Mainframe)
25. Question 25: What is the most common ASCII character encoding and what?
1. ISCII
  2. MIK
  3. Latin 1
  4. Unicode
26. Ques 26: What kind of technology allows multiple computers to share the same IP address?
1. IPX
  2. SPX
  3. ICS
  4. ICF
27. Question 27: Which part collects heat from the processor?
1. GPU
  2. Radiator parts
  3. Control card

4. HDD
28. Question 28: What kind of optical media replace audio cassette?
  1. CD
  2. DVD
  3. Blu-ray
  4. Laser disc
29. Ques 29: Which protocol is sometimes provided instead of IMAP?
  1. SFTP
  2. DHCP
  3. ICMP
  4. POP3
30. Question 30: What are integers, characters, strings and arrays?
  1. Boolean variable
  2. Datatypes
  3. Jaw
  4. Thread (The operating step within a process)
31. Question 31: What kind of data is used to create maps and 3D models of the earth's surface?
  1. EXIF
  2. RDF
  3. GIS
  4. CGI
