

Test your typing speed, practice 10-finger typing easily.

Typing speed affects work productivity and academic performance. Typing speed tests help you assess your skills and practice more accurate 10-finger typing.

Want to know your current typing speed? Typing speed tests help identify your skill level and improve your ten-finger typing ability. This article guides you on how to accurately measure it, along with optimal tools to help you.

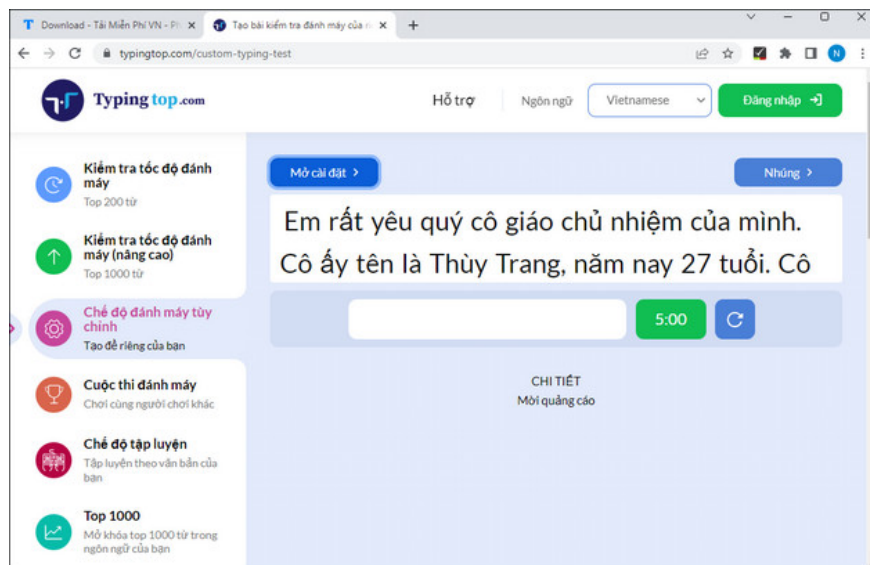

1. How to check typing speed

1. Use Typingtop.com

With the free Typingtop.com software, you can accurately check your 10-finger typing speed with a massive list of exercises that are constantly updated. Additionally, you can create your own tests and share them with others so they can practice like you.

Typingtop offers a variety of multilingual 10-finger typing tests.

If you find your WPM (Writing Per Minute) score is lower than average and you want to practice 10-finger typing to improve your speed and accuracy, Typingtop can also meet this need. Simply access the typing practice link above, select a typing exercise, follow the instructions, including hand position, and start practicing from the most basic level.

2. Tapdanhmay

There are many online tools that help us check our typing speed, and **tapdanhmay** is one of them. You can access it [HERE](#) to take a typing test now. Basically, it's a random exercise from thousands of stored problems, and participants must type within 1 minute.

The system will automatically check for errors immediately and distinguish between **red** (incorrectly typed) and **green** (correctly typed) lines so that the person being tested on their typing speed is aware of the error.

And after 1 minute, it will tell you your typing speed, how many words you made mistakes, and your current ranking compared to other people who have typed on this website.

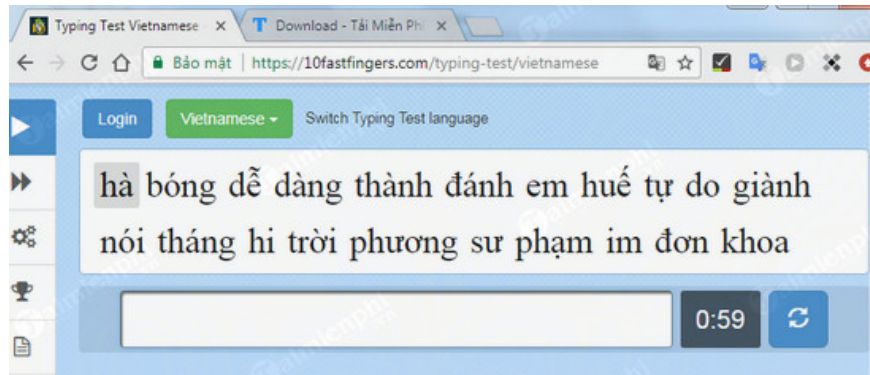

Kết quả Chụp màn hình	
58 WPM (từ mỗi phút)	Top 20%
Tổ hợp phím	(290 99) 389
Độ chính xác	52.73%
Những từ đúng	55
Những từ sai	17

[Chia sẻ qua Facebook](#)

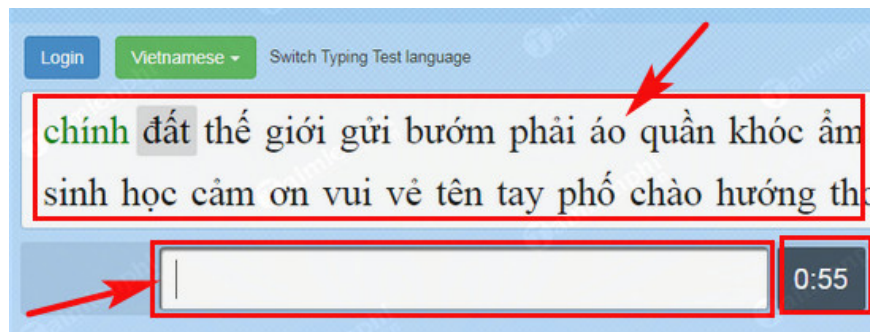

However, this is not the only feature that tapdanhmay offers users. There are many other features waiting for users to discover, and TipsMake is confident that this will be the most powerful tool for anyone who wants to check their typing speed or practice 10-finger typing.

3. 10fastfingers

Step 1: Access the website [HERE](#)

Step 2: Type the words that appear in the box above into the empty box below. You only have 1 minute to type, so type as quickly as possible!

4. TypingTest

Next is TypingTest. With TypingTest, you can choose the language to test, including English, French, Dutch, etc. It also displays the time you have to complete the test, giving you an assessment of your typing ability. You can access the website [here](#).

5. Learn 2 Type:

With Learn 2 Type, you can see how many characters you type per minute. After clicking "Test me," you will see the results of the test, and it will also show the number of characters you typed incorrectly.

- You can access the website [here](#).

6. Typing Speed ??Test

Finally, there's Typing Speed ??Test. Although it's in 4th place, Typing Speed ??Test is by no means inferior to the previous tools. With a simple interface, you just need to access the website and take the test. After finishing, you can share the results with friends on social media for comparison.

- You can access the website [here](#).

II. The test results are calculated as follows:

- **CPM** : Characters per minute - the number of characters you type in one minute.
- **WPM** : Words per minute - the number of words you type in one minute.
- Typing speed and speed assessment are categorized as follows:
 - + **Low speed:** Below 60 WPM
 - + **Medium speed:** 60 to 100 WPM
 - + **High speed:** 100 to 140 WPM
 - + **Professional speed:** Above 140 WPM.

Above is a summary of 4 online tools that can help you check your typing speed and your ten-finger typing ability. Besides these online tools, you can also learn ten-finger typing with utility software like **Typing Trainer** or refer to our **ten-finger typing techniques here**.
