

# The best Chromebook models you can buy in 2021

Recorded in the first quarter of 2021, a record number of Chromebooks were sold with 12 million units shipped globally. Chromebooks use Google's ChromeOS operating system, providing a different and relatively minimalist experience that you can equip yourself this year.

Google provides ChromeOS operating system for laptops or 2-in-1 computers. Up to now, this operating system has been 10 years old, it is simple and easy to use because it is not install a lot of applications such as computers running Windows or MacOS.

When the world is going through the Covid-19 pandemic, affordable Chromebooks are the best choice. Furthermore, the ChromeOS operating system has now been developed to use apps from the Google Play store. Many Chromebook models with high configuration, longer battery life . will be the choice to replace today's laptop models.

Some Chromebook models have been evaluated and tested, helping consumers make a reasonable choice depending on their needs.

## Acer Chromebook 715 - Chromebook with a big screen

Acer Chromebook 715 is designed for the premium segment for ChromeOS devices. The MIL-SPEC military-endurance Chromebook 715 features a premium all-aluminum chassis built to withstand drops of up to 122 cmv and forces down to 60kg.

715 with a fingerprint reader, backlit keyboard, Intel Core i5 processor and 16GB of memory, and many custom configurations. A special feature is that it is a Chromebook model that has a full numeric keypad along with an impressive battery life of up to 10 hours.

The price of Chromebook 715 is about 750 USD

## **Google Pixelbook Go - Great product of Google**

Google Pixelbook Go is a Chromebook model introduced at the end of 2019, but so far it is still the best choice for ChromeOS operating system.

The Google Pixelbook Go comes in two configurations to choose from including an i5 or i7 processor, has a 1080p or 4K panel, and is backed by up to 16GB of RAM, up to 256GB of storage, and a display. 4K. It weighs less than 1 kg but will still enjoy 12 hours of battery life along with a backlit keyboard and more. The Pixelbook Go has two USB-C ports that highlight connectivity along with a 3.5mm port.

Google Pixelbook Go was at one time on sale for \$1,399, at the moment it starts at \$649

## **Acer Chromebook Spin 713 - The best 2-in-1 Chromebook**

Still a model from Acer, the Chromebook Spin 713 is about 1.37kg light and 16.8mm thin. The case is made of shiny monolithic metal, simple but feels youthful and dynamic.

## Acer Chromebook Spin 713

Chromebook Spin 713 is a 2-in-1 model with a touch screen and a trackpad that is covered with high-quality Gorilla glass. The hinge can be rotated 360 degrees but has a good bearing capacity, it can withstand an impact force of up to 60kg and fall from a height of 1m2 like the 715. Chromebook Spin 713 has a 13.5-inch 2,256 touch screen x1,504 pixels with 3:2 aspect ratio. It is powered by the 10th generation Intel chip and will be available in multiple versions for you to choose from, up to 16GB of RAM and 256GB of SSD internal storage.

The Chromebook Spin 713 is suitable for those who have high mobility needs, prefer ultra-light machines and use it in tablet mode more.

Chromebook Spin 713 is currently on sale for 629 USD

## HP Chromebook x360 14c - Best 14-inch PC

x360 14c is a large screen Chromebook suitable for those who love working with wide screens. It's about 0.75 inches wider than the premium 13.3-inch model, and the extra screen width makes working in two windows side-by-side easier.

### HP Chromebook x360 14c

The HP Chromebook x360 14c can be configured with up to Core i5, as well as 256GB of PCIe SSD memory. It also comes with a 1920 x 1080 touchscreen, a 720p HD camera with its own switch, a backlit keyboard, and a fingerprint reader.

The 2-in-1 design means it can be used as a tablet or can be used as an external mouse and keyboard as a laptop. The x360 14c had a battery life that lasted 10 hours and 40 minutes in our tests.

HP Chromebook x360 14c is selling for about 520 USD

## Lenovo Chromebook Duet - Cheap Chromebook model

If you prefer simplicity, lightness and portability, the Lenovo Chromebook Duet is the right choice. This is a 2-in-1 Chromebook model that can be both a tablet and a laptop with a detachable keyboard. But the weakness of Duet is that the screen is a bit small, which will be an inconvenience in work if working requires a wide screen.

Chromebook Duet is equipped with MediaTek Helio P60T processor, 4GB RAM, 128GB internal memory, 10-inch 1920 x 1200 pixel LCD IPS touch screen with Wifi Connection Wireless-A, Wireless-AC, Wireless-B, Wireless -G, Wireless-N, USB Type C connector, Bluetooth 4.2 connection and 7180 mAh capacity battery.

Duet is in the low price segment and many people will choose it as a secondary device or simply for pure portability.

Chromebook Duet is selling for less than 300 USD
