

The best laptops for travelers

To buy a laptop as a 'companion' when traveling, you must pay attention to four factors: form, durability, battery capacity and security

To buy a laptop as a companion when traveling, you must pay attention to four factors: form, durability, battery capacity and security .

Lenovo ThinkPad SL400

Price: about VND 15 million

The Lenovo ThinkPad SL400 is a powerful and durable machine with the Intel Core 2 Duo processor. 14.1 inch screen is wide enough for a comfortable view, suitable for both work and travel. Although the ThinkPad SL400 weighs 2.5 kg, you will certainly be satisfied by the power and potential hidden inside it.

Asus P30A

Although not yet announced the price, but Asus P30A is known as ultra-portable laptop in the low-end segment. Equipped with Intel Core 2 Duo processor, 13.3-inch LCD screen adopts LED lighting technology for resolution of 1366 x 768 pixels. The whole body weighs 1.4 kg, the shell made of magnesium alloy helps to avoid good impact, integrates fingerprint recognition function to increase security . This laptop is really the ideal 'companion' each of your travels.

Sony VAIO Z-Series Notebooks

Reference price: 1,800 USD

Sony VAIO Z series is rated not only fashion but also because of its strength and durability. The Z series is thin, light and very 'mobile' with the case made of extremely sturdy aluminum and carbon fiber alloy. 'G-Sensor' shock protection system effectively protects HDD hard drives.

Panasonic Toughbook T8

Price: USD 2,099

With an unimaginable look like Sony VAIO, the Panasonic Toughbook T8 is really solid with bumps. T8 owns a 12.1-inch LCD screen, weighs only 1.4 kg, the case is made of magnesium alloy withstands the impact of falling and overflowing water, durable 'live' in the harsh environmental conditions that one 'traditional' laptops are hard to match.

Acer Aspire Timeline AS3810T

Price: 899 USD

Aspire Timeline AS3810T version of Acer won a lot of love, not only because of its sleek design, integrated Intel Core 2 Duo chip, but also because of its high mobility. The Acer Aspire Timeline AS3810T has a fairly ubiquitous battery life by using a standard 6-pack lithium-ion battery pack that can 'compress' the laptop for more than 9 hours, while the Lenovo SL400 battery above is only available. Can be used for more than 3 hours.

Dell Latitude E5400

Price: 699 USD

The 14.1-inch screen of the Dell Latitude E5400 is not as bright as some laptops, but the overall E5400 is really solid, highly secure, responsive and flexible, plus The 'soft' price above will certainly be a wise choice for many people.

Apple MacBook Air

Reference price: USD 1,499

There aren't many comparisons if you choose this ultraportable laptop from Apple. The aluminum case makes the MacBook Air strong and the thinnest part of the device is 4mm and weighs only 1.3 kg. If you want to equip 128GB SSD, you will have to spend a total of 1,699 USD.

HP TX2Z Tablet Notebook

Price: 1,149 USD

The TX2Z's 12.1-inch (1280x800) mirror screen is not only a regular LCD screen, but it is also a touch-screen tablet, which uses a stylus for quick input and multi-touch technology for convenient operation. than. Although weighing nearly 1.8 kg, not equipped with an Intel Core 2 Duo processor like the above models (instead of AMD Turion X2 RM), but thinking of multi-touch sensor is already 'dish'. The wonderful 'HP' gift for travel 'people'.
