

The best 'money-making' apps on Android

When using a phone, you often think about spending money rather than making money. It usually costs users a small amount of money from prepaid or monthly payments. Thankfully, there are many applications in Google Play that help you offset some of those costs. Here are some Android apps that help you make money.

When using a phone, you often think about spending money rather than making money. It usually costs users a small amount of money from prepaid or monthly payments. Thankfully, there are many applications in Google Play that help you offset some of those costs. Here are some Android apps that help you make money.

 2. Pawshake

Make money from completing surveys

Google Opinion Rewards

You may be surprised to learn that Google has its own application that you can use to make money. With Google Opinion Rewards, you can earn money from Google Play by completing the survey. You will receive a notification when a new survey is available and just take a few minutes to answer these simple questions.

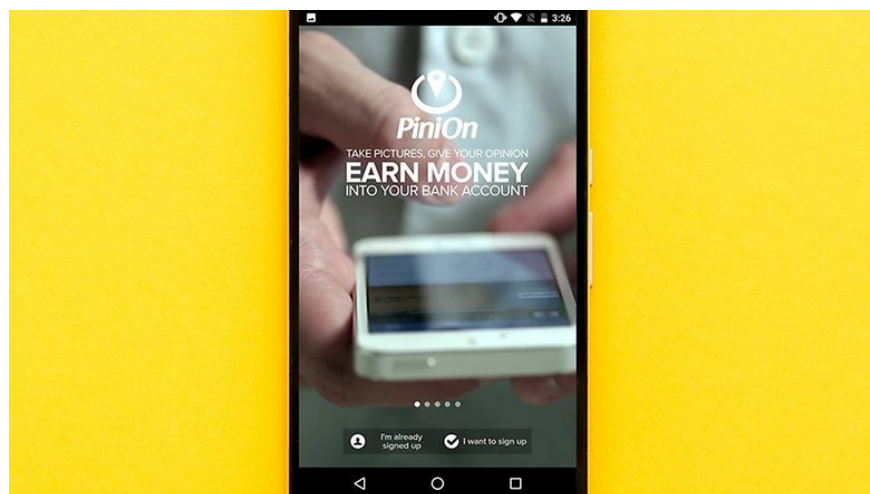

After completing the survey, you will earn money from Google Play to buy apps, music, games and some other things. Many surveys require time to complete, so you should not leave them for too long.

Surveys on the Go

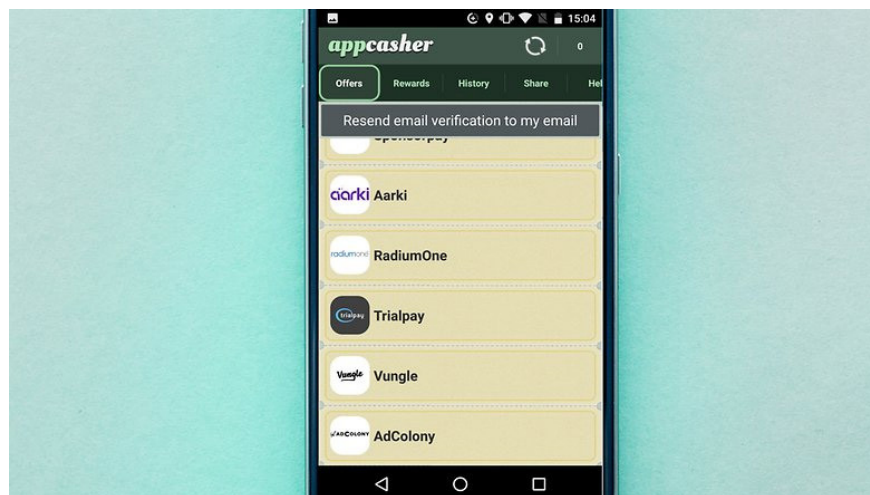

Surveys on the Go is a simple money making application, you just need to answer the survey and receive money. Unlike Google Opinion Rewards, this app pays cash surveyors. However, it only has a few surveys in a particular month, so don't expect to get rich quick with this application. However, it can help you earn a few extra dollars for you to consume, drink a few beers without much effort.

Make money by testing the application

AppCasher

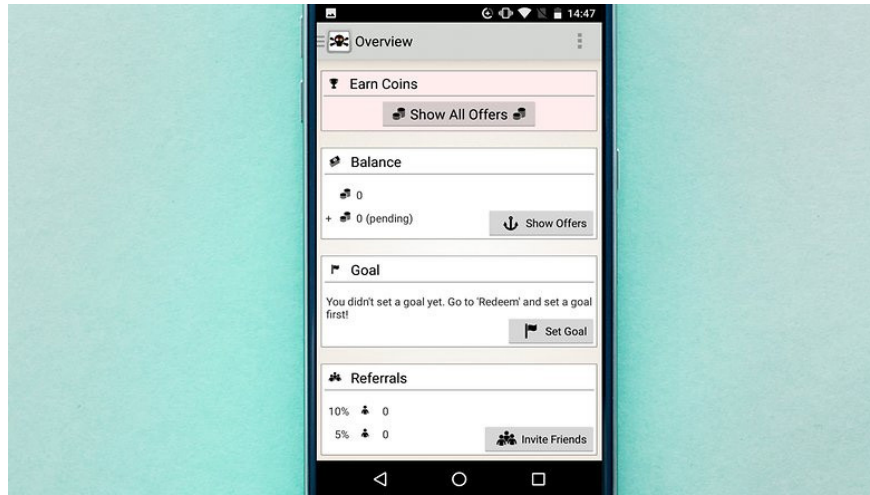

With AppCasher, you have just used the app and earned money. You can make money by installing and launching apps and the money you receive will be converted into gift cards used to buy items from Amazon or iTunes. Alternatively, you can choose to transfer money to your PayPal account if you wish.

You can also recommend the app to your friends on the condition that they use your special code to earn extra money from each subscriber.

Make money from selling second hand goods

eBay

The eBay website probably doesn't need to be introduced anymore, but do you know its Android application is even more useful for people who depend on mobile devices? eBay allows you to sell anything and is a way for many people to start selling online. If there are old clothes, electronics, household items, toys or furniture useful for someone, eBay will help you sell them.

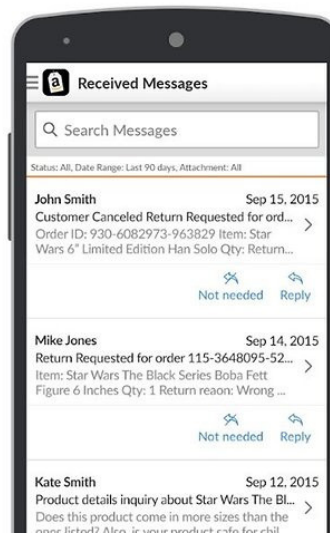

Amazon seller

After eBay, the next stop for sellers is Amazon. Amazon's sales app allows you to join one of the world's largest retailers via smartphones. Just like with eBay, this is a great way to turn your old items into useful cash.

See the status of your business at a glance.

Respond quickly to buyer messages.

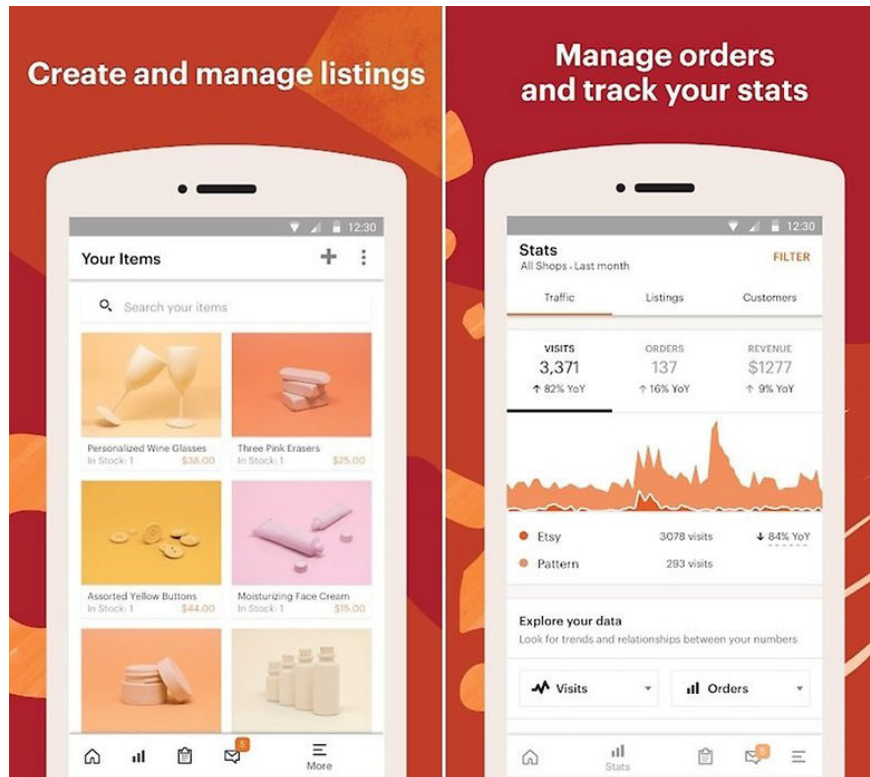

When registering as a seller on Amazon for free, you pay \$ 0.99 for each item sold. For really successful sellers, you can choose to replace the monthly subscription of \$ 39.99 instead of \$ 0.99 per item as it is now.

Find freelance jobs online

Freelancer

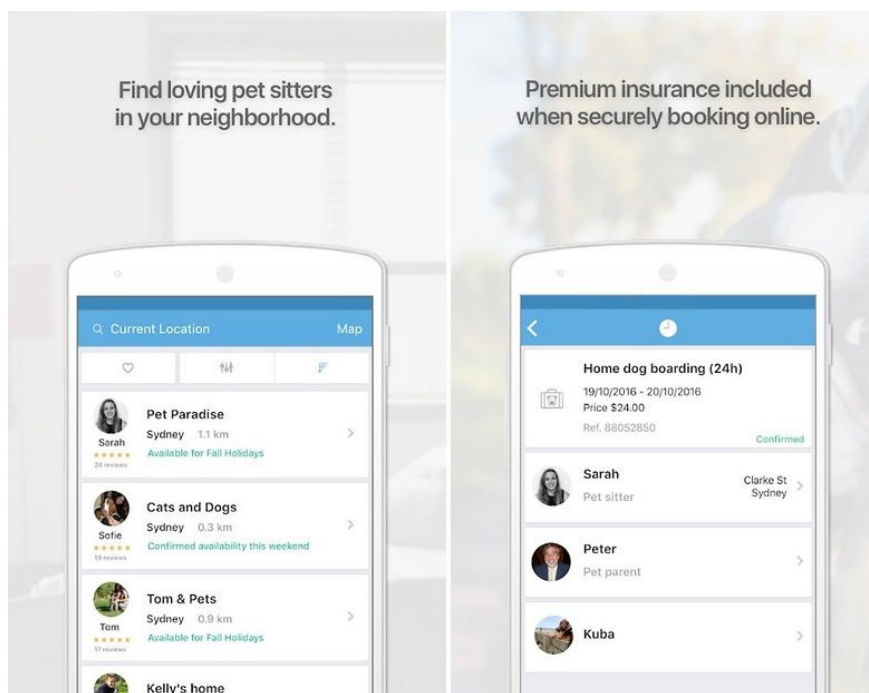

Freelancer is not completely an online money application after a few minutes, but helps you find freelance jobs to earn extra income. Employers have freelance projects and freelancers offering suggestions about the time

taken and the remuneration they want. Finally, freelancers are hired if their proposals fit the needs of their customers.
