

The catastrophic outcome of the cars rushed through 100 speed humps at a speed of 160km / h

With what happens when driving at a speed of 160km / h across 100 speed bumps, there is probably no driver surviving.

With what happens when driving at a speed of 160km / h across 100 speed bumps, there is probably no driver surviving.

1. Which time is reasonable for automobile maintenance?
2. Great way to cool cars 60 degrees after only 30 seconds
3. What happens when fuel is mistaken for a vehicle?

Using the BeamNG simulator driver game, Youtube DestructionNation created an endless long highway between the desert with 100 speed bumps off the road. Next, they tried a concrete mixer, Subaru WRX to the 88s Oldsmobile Delta . rushing through that tortured path at speeds of up to 160km / h.

How will these cars end? The simulator video below will give you the answer.

From concrete mixers to supercars, they suffered catastrophically in their own way before this entertaining challenge. And of course, with such an outcome, perhaps no driver could survive. Thankfully this is just simulation technology and this is just an entertaining video.
