

# The classic cheat codes, almost every 8x 9x player knows by heart

Cheat code, also known as cheat code, is the code, the statement ... added by the manufacturer to change some game features and help players 'clearing' easier.

Cheat code, also known as cheat code, is the code, the statement . added by the manufacturer to change some game features and help players 'clearing' easier.

Cheat code has been around since the SNES game and is used by programmers to test and check errors in the game as quickly as cheat code to change the screen, hit a boss death hit without losing much effort, opening. lock new tasks, change character costumes . After completing the test, these engineers did not remove the cheat code but leave it as a reward for gamers.

The mechanics of modern games have been somewhat changed so cheat codes are no longer used much. Here are some of the most famous cheat codes in the gaming world to this day and the secret behind them.

## Contra

Up and down left and right left and right BA Start - this is the legendary cheat code that helps the players in Contra's players will increase to 30.

This cheat code was created by developer Kazuhisa Hashimoto to try the game. Because the game he made was so hard, he had to create something to try out the game without giving up.

Because Hashimoto forgot, the cheat code was not removed before leaving the factory. Therefore, Contra and this cheat code have become a legend in the gaming world.

## Mortal Kombat

Mortal Kombat on the old console system is a legend for fighting gamers because it is a rare arcade game that gamers can cheat.

Gamers who just need to press the buttons of the chassis in the right order can "turn" into the EGB Menu screen to adjust the game, try the combo and preview the end of each character.

## Sonic The Hedgehog 2

Through the bug finding system on Sonic The Hedgehog 2, gamers can do everything they want, from dropping items everywhere to turning Sonic from green to yellow.

## Half Life

Half-Life, a game that delves into the childhood memories of many gamers. Therefore, cheat code in Half-Life has become equally popular.

The cheat code in Half-Life that any player knows is "impulse 101". With this cheat code, players will have all weapons, armor and blood in just one note, with the Counter-Strike mod your amount will be up to a maximum of \$ 16,000.

In later games like Call of Duty, The Elder Scrolls, Doom 3 . this "cheating" method became extremely popular.

## Doom

The most famous cheat code Doom - one of the ancestors of the FPS genre is "iddqd". When the player enters this code, the character will immediately be immortal.

Another cheat code of Doom is known to many gamers as "idkfa", which helps players unlock all guns, full recovery and ammunition for the character.

### **Strategy game**

The old strategy games like Starcraft, Warcraft 3 or Age of Empire have many cheats.

The famous cheat code commands and become memorable tips when gamers have trouble with resources compared to rival AI machine can be mentioned as "Show me the money" of Starcraft or "Greedisgood" of Warcraft . But perhaps the most badass is the "Bigdaddy" in the Empire game (AoE) that allows players to summon a new rocket launcher, a weapon that was so bad in the ancient war, when the weapons The air is still rudimentary.

### **Grand Theft Auto V**

Grand Theft Auto is one of the most used cheat code games for players. When entering the code to get a genuine car, the player will be entitled to use any gun in the game. For example, enter the cheat code Flying Cars, the player's vehicle will grow wings and fly to an altitude of thousands of meters. Up there, players can freely watch

the city from the air.
