

The Dell Mini 10 is brilliant

Dell unveiled a set of 10.1-inch screen netbooks called Mini 10 with vibrant colors. It has a large keyboard, multi-touch trackpad.

Dell unveiled a set of 10.1-inch screen netbooks called Mini 10 with vibrant colors. It has a large keyboard, multi-touch trackpad.

Dell announced the launch of Mini 10 from CES 2009 just now. This is a netbook model with a 10.1-inch screen, Wi-Fi connectivity, Bluetooth and HDMI output port. Machine equipped with DVD drive, 160 GB hard drive and 1 GB RAM.

Impressed by the 92% keyboard size compared to the standard keyboard on the computer (equivalent to the Eee PC 1000HE), in addition to the multi-touch trackpad, watch HD and 720p standard definition video.

It has a 3 cell battery (3 hours of use) or 6 cells (equivalent to 6 hours of use).
