

The Dell® XPS 13 is officially released in Vietnam

Dell officially launched the ultra-portable XPS 13 Ultrabook™, the world's thinnest and lightest Ultrabook™ in Ho Chi Minh City.

March 16, 2012 in Ho Chi Minh City Dell officially launched the ultraportable XPS 13 Ultrabook™, the world's thinnest and lightest Ultrabook™, the thickness at the thinnest point is only 6mm, the thickest spot is 17 mm, weight is 1.3 kg.

The 13.3-inch display is designed with Gorilla Glass toughened glass, yet no Ultrabook™ is available, extending to the edge and the compact body size of an 11-inch Ultrabook™ display. The device starts up quickly in seconds, the battery life is up to 8 hours 53 minutes.

The XPS 13 is one of the first Ultrabooks™ to feature Intel® Smart Connect technology, which helps to 'wake' the device periodically for network detection, calendar updates and email. With Intel® Rapid Start and solid-state drives, the XPS 13 is capable of booting in seconds.

XPS 13 is equipped with an Intel® Core™ i5 or Intel® Core™ i7 processor, 128GB or 256GBiii hard drive, Intel® HD 3000 graphics card and high resolution display WLED 300 -nit. Product comes with Window 7 Home Premium.

The case is a modern fashion work with textures from aluminum and carbon fiber. Business-friendly features are highly appreciated by IT professionals.

In particular, the XPS 13 is the first consumer product equipped with Pro-support on-site warranty service. The price for the Core i5 version is VND 33 million and for the Core i7 version is VND 38 million.
