

# The divine poses will give you a beautiful image of ecstasy

Do you know how to pose before the lens? Or always be loyal to the V-style hand-raising. To help you have beautiful photos, the following article will show you 10 ways to pose when taking photos.

Social networking is like a diary, you can write about life, upload your photos on it so you can share with your friends. Photos when uploaded here, everyone wants it to be the best pictures to get more likes from friends.

With the development of many social networks today, 'virtual' images have to be taken care of, upgraded to new heights. However, many people when taking photos still do not know how to pose in front of the lens so beautiful, always faithful to the V-style hand-raised style. So, the following article will guide you 10 ways to pose when taking photos. The photo will give you beautiful photos of ecstasy, please follow it.

## 1. Cover the sun with your hands

With the summer days like this, please take advantage of the sun to create beautiful pictures for yourself. In the morning or mild sunny days, sit facing the sun, then now your hand toward the sun, eyes away from you, thinking. Surely this picture is not a few thousand likes, it is a bit wasteful.

## **2. Cover your face with your hand**

The hand of the letter V is really fad and lost. If you want to have a mysterious and charming picture to 'drop your hearing' on social networks, try this style. You will definitely have that picture.

### **3. Hair in the wind**

Make use of the hair to make the image more sparkling and feminine. Let your hair have fun with the windy 'sister' to make a tune for yourself, you just need to take your hair lightly, your eyes are far too beautiful. Remember that the wind is light, not messy hair is the disaster.

#### **4. Lean against the wall to look far away**

Just want to "deep" just want to show off the beautiful divine background to apply this secret effectively. Remember not to look at the lens to perform deeper, or know in advance where your background color is, then choose the first one at home to not sink.

## **5. Fallen leaves - flying flowers - snowfall - water splashes**

These seemingly normal things will bring you extremely picturesque images. In the middle of the field of flowers, or the leaves of the fallen leaves, close your eyes, spread your arms to feel this beautiful scenery or stand under a beach, wring your hands with water with a mischievous smile . surely This will give you a beautiful photo "tilting water, tilting it".

## **6. Turn your back on the camera or hand raised**

These types of shots are suitable for girls, guys who like to show off beautiful scenes like green beaches, standing on high mountains . Shooting is extremely simple, just turn your back, hands up in the sky, aiming eyes and enjoy the atmosphere here, that's all, you have a picture that makes the viewer feel dull.

## 7. Always have a small camera

Taking advantage of small cameras as props is a very hot trend of young people when taking photos. If you can afford to hold or wear a small and beautiful camera, it makes the picture look better.

## 8. Go and shoot

Instead of standing still and standing like a statue, move a bit. This kind of shooting is like accidentally stealing, will see your natural style everyday without having to think about what shape, just go as usual.

## 9. Heatsign movement - heart icon with two fingers

The hotness of this type of shooting is already out of the question, most Kpop stars as well as Vietnamese stars have applied and responded enthusiastically to this styling. Instead of the symbol of the heart with extremely troublesome hands, the Korean stars have come up with a simpler way to send hearts to fans, that is, pinch two fingers together to form one. beautiful little heart. The two-finger heart shape was commented by Korean fans as very cute, making the images of idols easier to come by. So why don't you try it?

## 10. Hold something to cover your face

Let's see what's around, what is covered, just cover it. For example, go to the forest, find a small leaf, cover your face, or take a flower garden to pick a flower to cover your face . When covering, remember to cover half of your face or cover all but the eyes. This style brings mystery, and is extremely useful for the face of many poorly acne or want to show off the place there is nothing beautiful, then hold up pretending to cover up.

Wish you success and have good photos!
