

The eagle's cruel mountain goat hunting

You will see with your own eyes, you will see the skill of hunting the mountain goat, sophisticated but also extremely cruel, of the mighty eagle.

Thanks to its speed, sharp eyes and superior hunting skills, the eagle is known as the 'lord of the sky'. This bird can hunt large prey such as mammals (mountain goats, deer, wild boars), reptiles . thanks to the grip of large eagle claws.

The video below captures an eagle hunting a mountain goat. You will see with your own eyes, you will see the skill of hunting the mountain goat, sophisticated but also extremely cruel, of the mighty eagle.

In the video, the eagle takes aim at a feeding baby goat that weighs five times its weight. After flying to reach the goat, the eagle used its strong legs and sharp talons to pull the goat off the cliff. The eagle then released the goat from the cliff into the abyss.

Because the mountain was very high, the goat had to die extremely tragically and became the meal of the eagle. Then the eagle slowly enjoyed its meal. The eagle's way of hunting is simple but extremely effective. It also proves that the eagle is the ruler of the air world and is at the top of the list of aerial predators.

The video was shared on the youtube channel of 'IVM Sky Animals' and quickly attracted the attention of netizens. Witnessing the eagle's prey, many people had to "cold" before the cruelty of this hunting scene as well as the cruelty in the wildlife world.
