Step 2 : Open the application and click on the option to **create Create a new sticker-pack** .

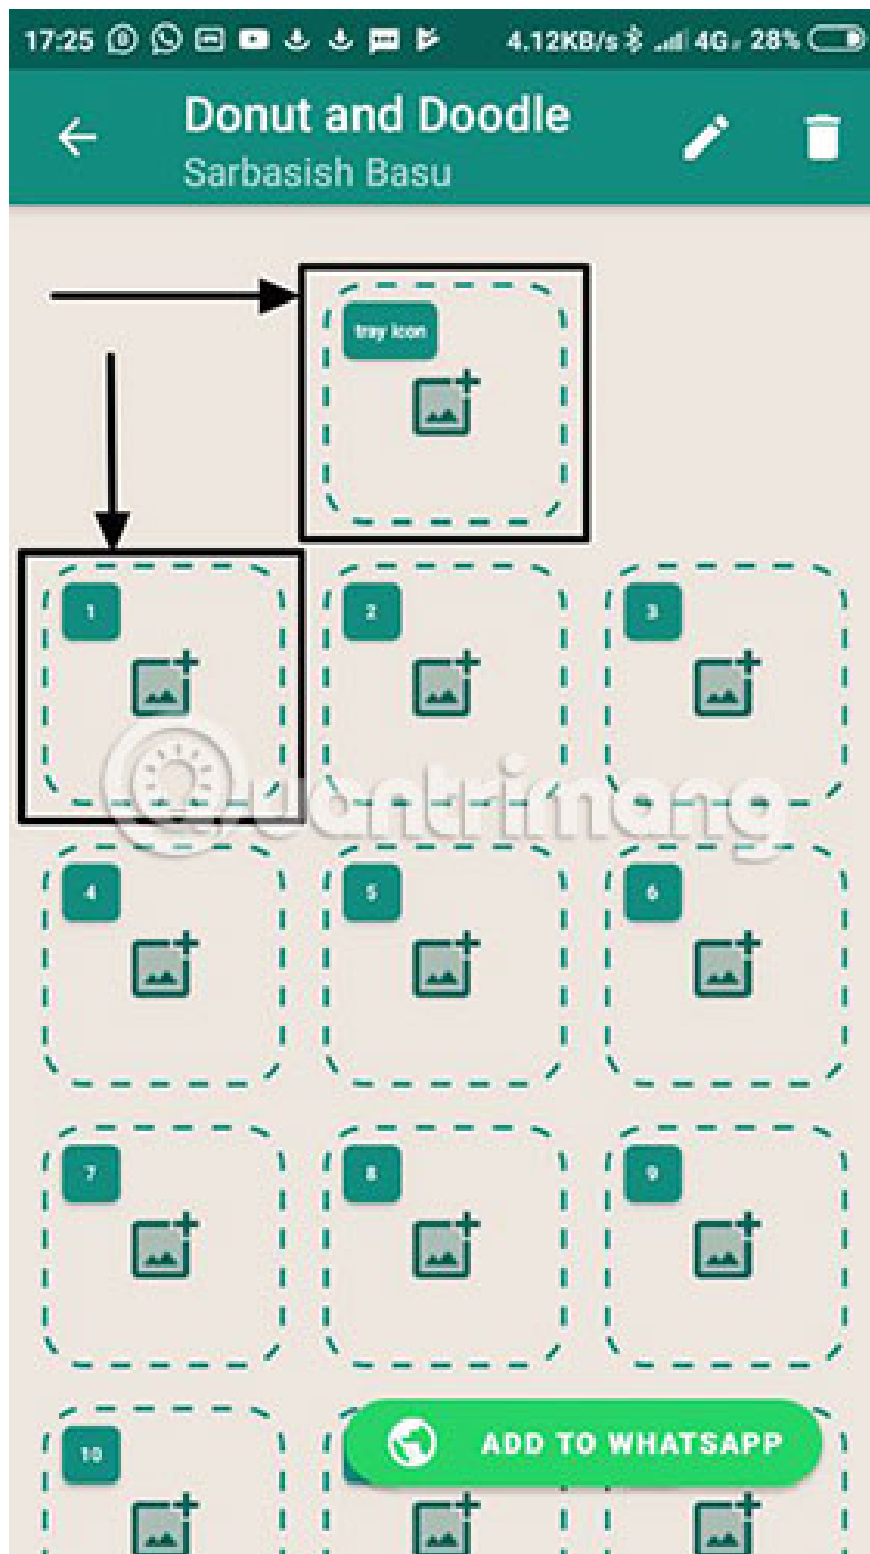

Step 3 : Now, you will have to enter the name and author of the sticker package, then click on **CREATE**. The name of the sticker package and the author must be 30 characters or longer.

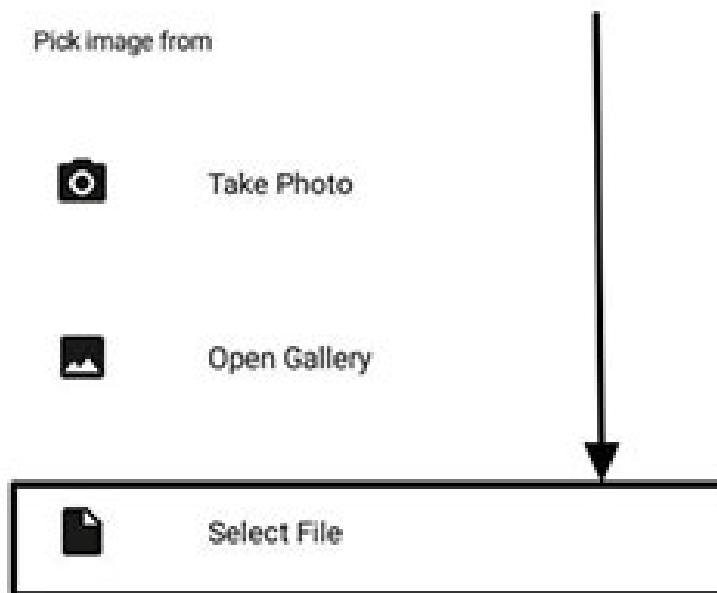

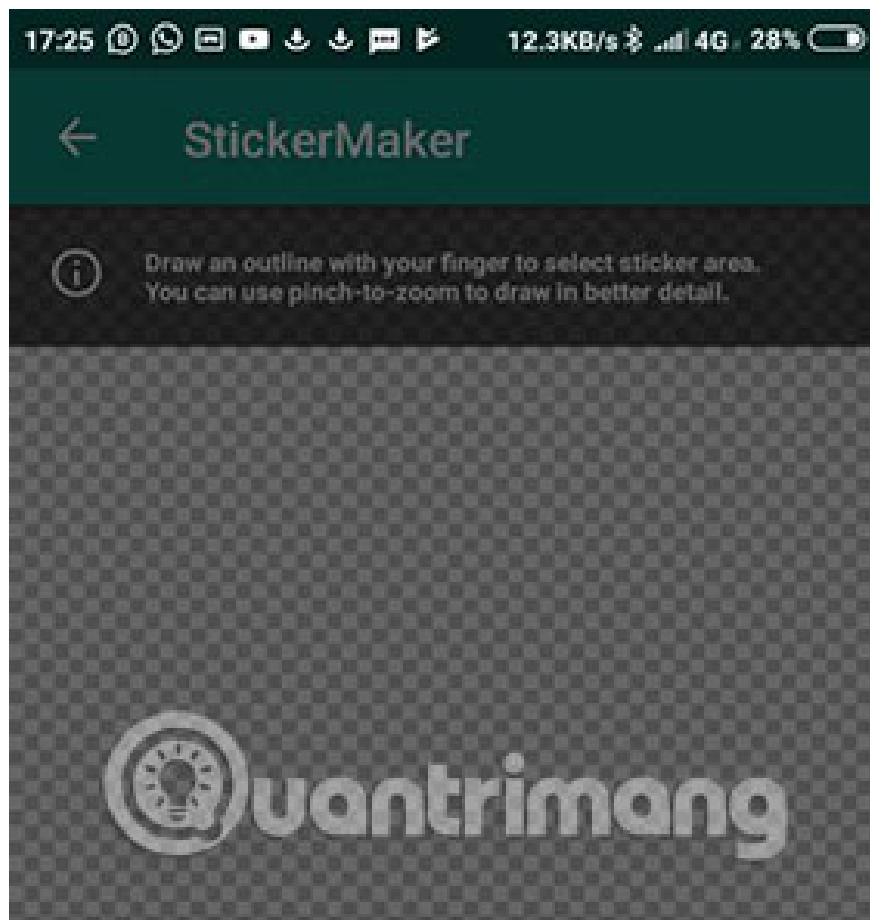

Step 4 : After the sticker package is created, click on the name of the sticker package to add a sticker to it.

Step 5 : Now in a sticker pack, you can add no more than 30 stickers. Just click 1, 2 or any other number to add a sticker.

Step 6 : There are 3 options to add a sticker. You can take photos with the help of the camera, select an image from the library or select an image file with a transparent background.

You should choose one of the first two options because the options to make the transparent background image quite limited. Preferably directly add PNG images with a transparent background. To learn how to make the photo background transparent, you can read the tutorial: [How to simply delete the photo wallpaper](#).

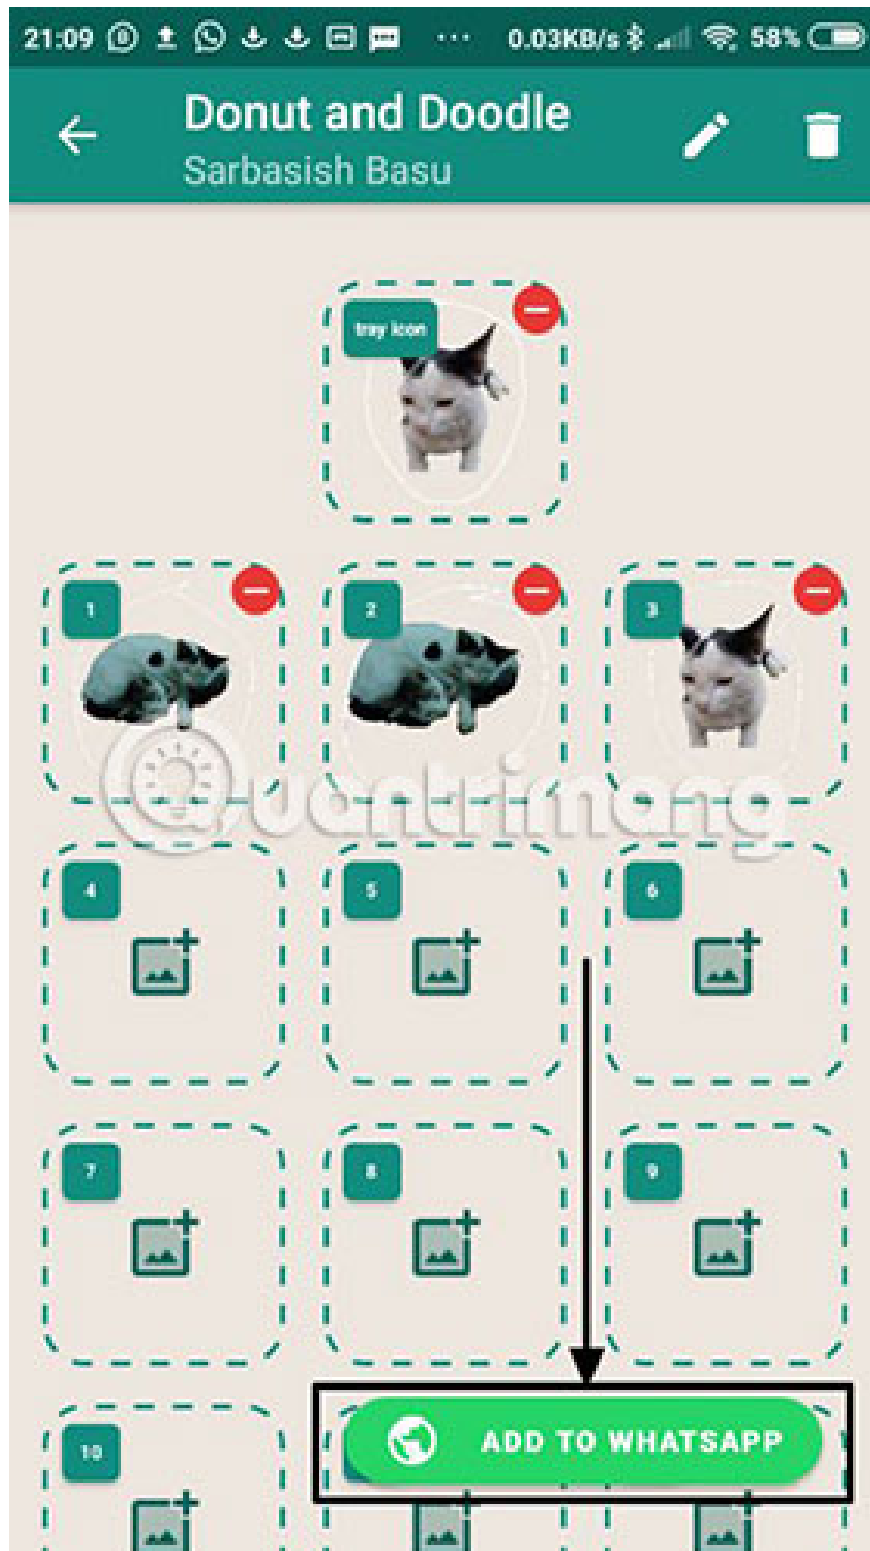

Step 7 : When clicking **Select File**, you will have to select the PNG image, draw a contour around it and click **Yes, Save Sticker** . You can even rotate images, change and perform other activities on the image to suit your

needs.

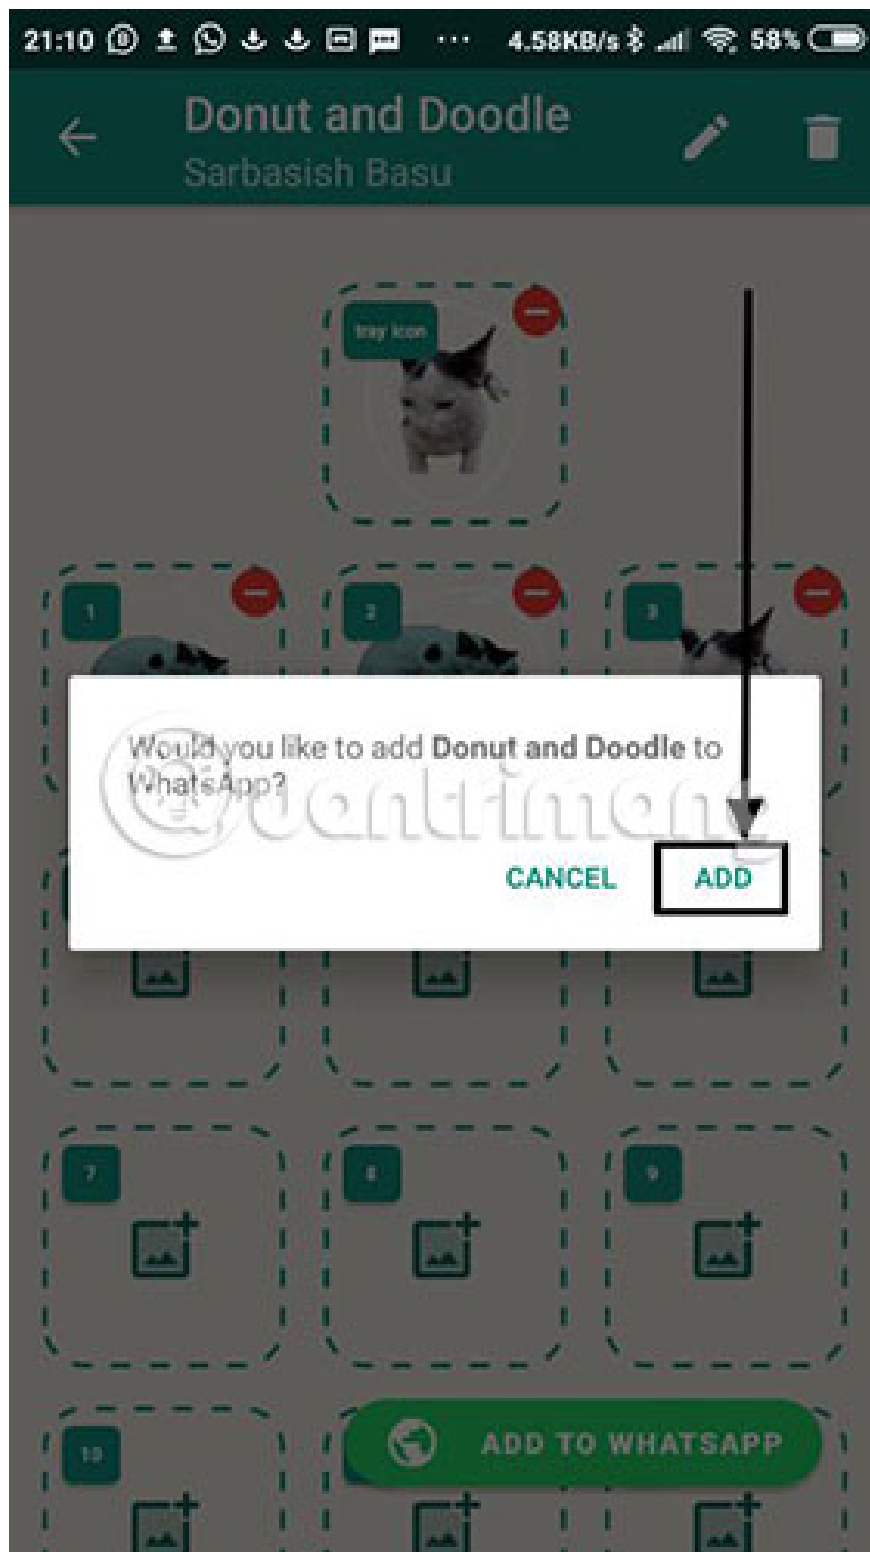

Repeat the same steps for other stickers.

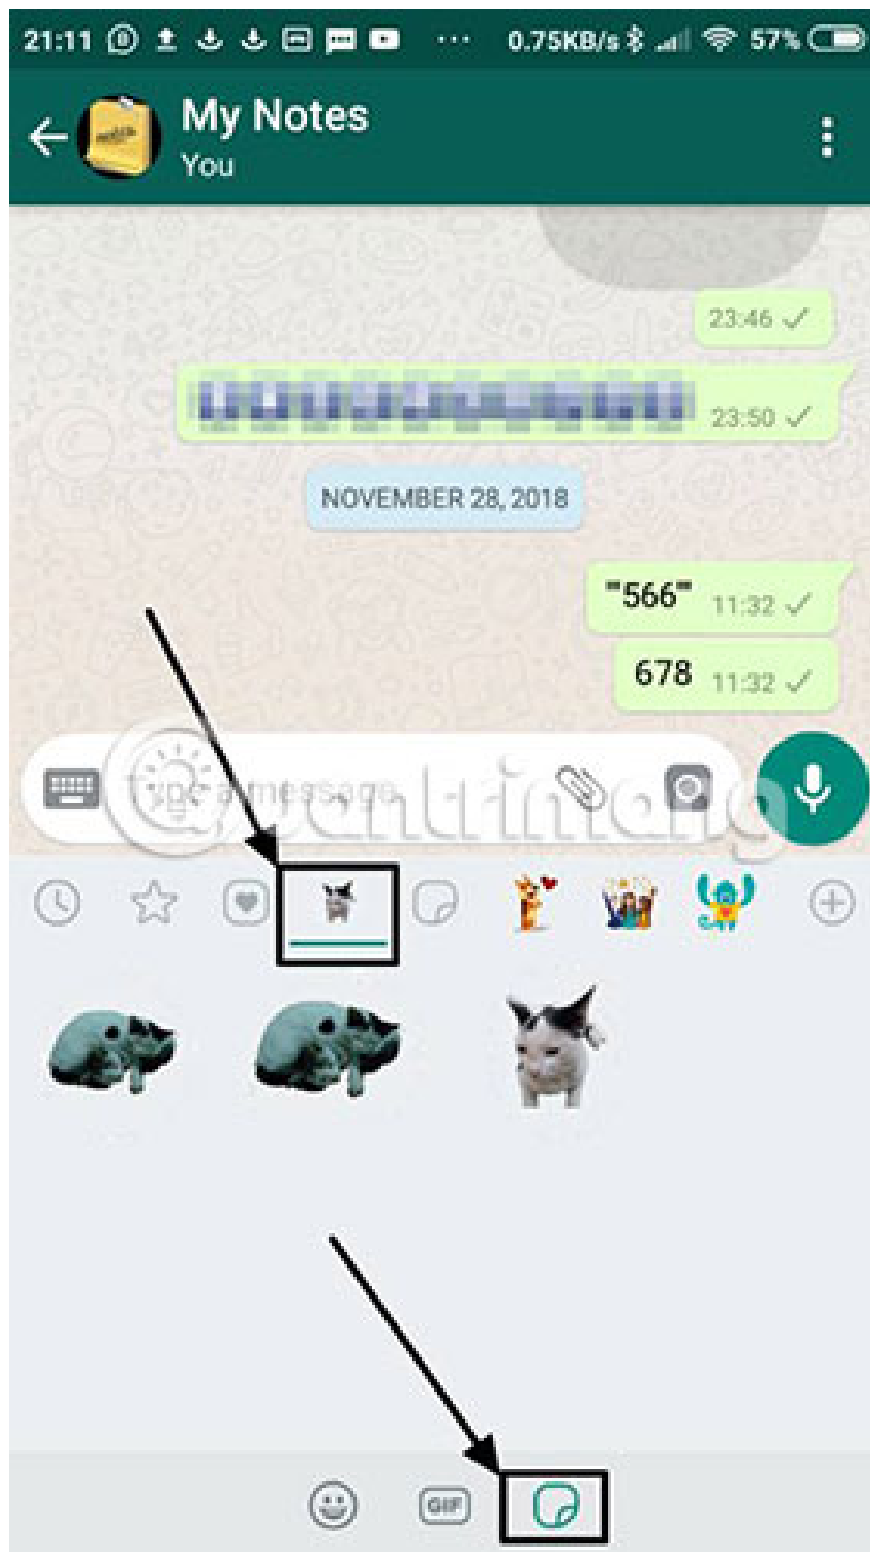

Step 8 : When you're done adding all the stickers, click on **Add to WhatsApp** . You can add up to 30 stickers and make sure there are at least 3 stickers in a package on WhatsApp.

Step 9 : You will have to confirm the process of adding the sticker package by clicking **Add**.

Step 10 : Now you can open any WhatsApp conversation and find WhatsApp sticker pack created by you in the sticker list.

Step 11 : Just click on any sticker to send them immediately.
