**Watching your phone number** in use helps users know exactly the number of subscribers they are using in case of forgetting numbers or just bought a sim .

1. Some iPad acceleration tips run smoother
2. Can download and upgrade iOS 11 on iPhone / iPad
3. Instructions on how to block spam phone numbers on iPhone

This way helps users to be more active in transferring money to other accounts, declaring personal information and easier to manage their subscription information. Here TipsMake.com will guide you how to check phone numbers Viettel, Mobi, Vina, Vietnammobile are using, on both Android and iPhone.

## How to check your phone number in use

1. Ask people around you
2. See the phone number Viettel is using
3. How to check the phone number Mobifone is using
4. See the phone number Vinaphone is using
5. Check the Vietnammobile phone number you are using

### 1. Ask people around you

The easiest way to see the phone number you are using is to ask someone to receive your incoming call, then ask them to reread the phone number you called.

**Note:** This case only applies when your phone has money remaining.

### 2. See the phone number Viettel is using

Each network will have a separate syntax to check the phone number you are using. There are 3 ways for you to check the phone number used on mobile phones for Viettel network operator as follows:

**Method 1 :** Call Viettel's switchboard at 198 or 19008198 (charge 200 VND / minute). Then the operator will help you get the phone number you are using.

**Note:** This case only applies when your subscription has funds in the main account.

**Method 2:** Use the message syntax to check the phone number in use.

To check the Viettel phone quiz you are using please compose the syntax: **TTTB to 1414** (free) or you can use the syntax: **TRA CUOC sent 195** .

After performing the message syntax, you will receive a notification with the content including: Phone number in use, full name of subscriber name, date of birth registered, ID card number / Passport as well as the place of issue . If this information does not match your actual information, please update Viettel subscription information to avoid SIM blocking or other unnecessary inconveniences.

### **3. How to check the phone number Mobifone is using**

**Method 1:** Open the phone application (Phone) and enter \* 0 # or \* # 0 # or \* 1 # or \* 3 # and Press the call key. After this test, you will receive the phone number you are using right on the phone screen.

**Method 2 :** To check the phone number Mobifone you are using by pressing \* 0 with the call key or \* 1 then press the call key.

#### 4. See the phone number Vinaphone is using

**Method 1:** Open the phone application (Phone) and enter \* 110 # and press the call key. Then on your screen will display the following information:

1. Subscription number: VD 1275088xxx
2. Package: Vinacard, .
3. Operation date: \* date from SIM activation date

**Note:** This method only applies to certain subscribers.

**Method 2:** Perform the number 900 operation and press the call button, then select the 4 key immediately IVR system will automatically read the Vinaphone phone number you are using.

**Note:** This method only applies to prepaid Vinaphone subscribers.

## 5. Check the Vietnammobile phone number you are using

Open the phone application (Phone) and enter the syntax \* 123 # and press the Call key to view your phone number.

Then the system will send you a message with detailed information about the SIM and the phone number you are using.

Wish you check the phone number that is being used successfully!
