

# The final design video of the iPhone 2018, the smartphone that anyone who loves technology is waiting for?

In 2018, Apple may expand the iPhone X line with two 6.5-inch dual-camera models and 6.1-inch models with a single camera.

In 2018, Apple may expand the iPhone X line with two 6.5-inch dual-camera models and 6.1-inch models with a single camera. And from the 3D rendering that is supposed to be the final design of the iPhone 2018 shared by the @OnLeaks Twitter account, we can see the remarkable points on the device including:

1. Shiny metal rim, rounded edges stronger than iPhone X.
2. Use lightning gates.
3. The size of this 6.5-inch version will be 157.5 x 77.4 x 7.7 mm. Screen overflow and have rabbit ears similar to iPhone X.
4. To increase Wi-Fi and mobile reception capability . iPhone 2018 is designed with a black plastic strip on the side of the device.
5. The glass back has two basic colors, black and white.

Some images are said to be designed by iPhone 2018:

Invite you to watch the video that is supposed to be the design of the 6.5 inch iPhone 2018.

See more:

1. iPhone 2018 will only use Intel modems, leaving Qualcomm out
2. These are all Apple products that will debut in 2018
3. iPhone 2018 will have 62 times faster network speed
