

The first Ivy Bridge laptop from Dell in Vietnam

Dell Audi A4 and A5 (Inspiron 14R 5420 and 15R 5520) with Intel Core i 3rd generation increase 15% performance as well as 60% increased graphics capabilities.

Dell Audi A4 and A5 (Inspiron 14R 5420 and 15R 5520) with Intel Core i 3rd generation increase 15% performance as well as 60% increased graphics capabilities.

Dell Audi with changeable cover with many colors.

The duo of Dell's new products has a design inspired by high-end cars, Audi with a silver cover, Inspiron logo with stainless steel highlights and shiny. In addition, the upper outer shell can be changed with many colors suitable for young people.

Dell Audi A4 and A5 are two of the few Ivy Bridge chip models available in Vietnam this month. Core i processor of 3rd generation gives a 15% increase in performance compared to the previous generation. Meanwhile, the integrated graphics capabilities of the machine (Intel HD Graphics 4000) are also 60% stronger than the older generation and for the first time support DirectX 11 and 3D.

Dell Audi A4 (Inspiron 14R 5420).

Dell Audi A5 (Dell Inspiron 15R 5520) has a larger screen with 15.6 inches and also more powerful configuration including Intel Core i7-3612QM processor, AMD's latest 128bit series 7 discrete graphics card is Radeon HD7670M .

The Dell Audi A4 version (Inspiron 14R 5420) has a smaller screen of 14 inches, Intel Core i5-3210M processor, 4 GB RAM and NVIDIA GeForce GT630M discrete graphics card.

15-inch screen version has a stronger configuration.

Both products have the latest USB 3.0 standard ports, HDMI 1.4 and Bluetooth 4.0 connectivity. According to the manufacturer, the Dell A4 and A5 batteries both have a cycle life of twice that of regular machines (600 times the usual 300-350).

Dell Inspiron 14R 5420 will be on the front shelf with a reference price of VND 15.9 million (excluding VAT).
