

The hot moments of the gamers' team are so hot that you can't help laughing

Video games were originally created to help people entertain and relax. But sometimes the player turns the game world into a very stressful place, making them easily angry.

Video games were originally created to help people entertain and relax. But sometimes the player turns the game world into a very stressful place, making them easily angry. Many people after losing the game have vented their anger on the keyboard, computer, . causing economic damage, even they have spicy actions that cause pain for themselves and others.

1. When overly afraid, people may have extraordinary abilities.

2. The game ends when the guy plays better.
