

The insurance center in Vietnam confirmed that the users of the old iPhone will be replaced with the battery for \$ 29

When will the cheap iPhone battery replacement program be applied in Vietnam? Conditions are applied and what is the price?

After being found deliberately reduced iPhone performance, Apple announced it would reduce the battery replacement price for the iPhone from \$ 79 to \$ 29 from now until 2018. The program is applied worldwide. gender and of course Vietnam.

So, when is the cheap iPhone battery replacement program applied in Vietnam? Conditions are applied and what is the price?

The above questions of iPhone users in Vietnam are in charge of one of the Apple authorized warranty and repair centers in Vietnam. Specifically:

1. The old iPhone battery replacement program has begun to be deployed in Vietnam. Users can go to Apple authorized warranty and repair centers in Vietnam to enjoy the service (list here).
2. Battery replacement program applies to iPhone 6 and above.
3. Only international iPhone (genuine or portable) can apply the battery replacement program with Apple's preferential price of 29 USD. All lock (network lock) devices will be rejected.

4. In Vietnam, due to costs incurred (eg VAT), the battery replacement price will be slightly higher than the \$ 29 Apple announced, but still comply with its policies. Specific numbers have not been announced.

5. Battery replacement time may take several days because the battery is not available and must be returned from abroad. There is no information about whether the customer can hold the phone or leave the service center in the meantime.
