## Why can't code Universe Fighters be changed?

Maybe the code you change has expired, the publisher releases the code to the player and often comes with the time of use of the code. Of course, the code for newbies always has a very long time to expire, and the code from events is usually very short. So please enter as many codes as possible while they are still within the expiry date.

Another reason is the way you enter the code, if you copy and paste the code in the code list in the table above and it doesn't work, it may be that the code has expired.
