

The list of Huawei smartphones will receive Android 10 and EMUI 10 updates in the near future

Huawei today officially announced the Android 10 update schedule for its devices.

Huawei today officially announced the Android 10 update schedule for its devices. This is information that users of its products are particularly interested in after the controversy related to Google discontinuing cooperation with Huawei, meaning that Chinese manufacturers of smartphones and tablets will not also use Google services in the future.

Putting aside the trouble with Google, the world's third largest smartphone manufacturer has been planning to test Android 10 / EMUI 10 beta on some of its smartphones in the past few months. After receiving and summarizing feedback, Huawei plans to start releasing stable Android 10 updates to global customers in the near future (this process can take up to several months depending on the segment, segment and area).

Starting this month, Huawei will deploy Android 10 and EMUI 10 for the following devices:

1. Huawei P30 Pro
2. Huawei P30
3. Huawei Mate 20 Pro
4. Huawei Mate 20
5. Huawei Mate 20X (4G)
6. Huawei nova 5T

In phase 2, Huawei will launch global updates for other devices (older or lower segments) including P30 lite, nova 4e, P20, P20 Pro, Mate 10, Mate 10 Pro, Mate 20 lite, Porsche Design Mate 10 / RS, P smart 2019, P smart + 2019, P smart Pro, P Smart Z, Nova 4 and Nova Lite 3.

The next version of EMUI will bring an entirely new user interface designed based on the layout of a magazine. Along with that are some additional features such as a dark background mode, redesigned Camera app, always-on display mode, Morandi color palette, adaptive icons, animation effects . There is also a The useful multi-screen collaboration feature in EMUI 10 makes it easy to control your smartphone from your PC and transfer files between them.
