Here are the most expensive fish in the world, including outstanding names such as tuna, koi, arowana . A poisonous, strange fish can have very high prices, even up to billions. copper.

## **Arowana**

This fish is likened to the king of fishes and is considered a symbol of luck and fortune in the family. Leave a strange and strange arowana, many people are willing to spend tens of millions even a few hundred million.

The most expensive arowana in the world is Platinum Arowana, their bodies are white because of a special mutation in body color, like the albino mutation in humans.

Platinum arowanas are very rare, there are one in tens of thousands. A Platinum arowana was sold for up to \$ 400,000 (nearly 9 billion), equivalent to a super sports car.

### **Koi fish**

In 2018, during a fierce auction at Saki fish farm in Hiroshima, Japan, a collector from Taiwan spent 203 million yen or 42 billion dong to own a long Koi fish. more than 1m is red and white. It is a beautiful Koi fish with clear colors, harmonious body, balanced and very rare.

**Yellow-spotted fish (scientific name is *Otolithoides biauritus*)**

This fish is known by another name as yellow finfish. This fish is very rare in nature, so the price of a goldfish can reach billions. A giant in Zhe Jiang China spent 8.6 billion dong to own a yellow sardine.

### **Bluefin tuna**

The world's most expensive bluefin tuna costs 333.6 million yen (nearly 71.5 billion dong), equivalent to nearly 70kg of gold or 3-bedroom apartment in downtown Manhattan, USA. This fish weighs 278kg, Japanese fishermen caught it off Aomari province. It is called the Japanese Tuna King by Japanese media.

### **Fresh Polka Dot Polka Dot**

Not only outstanding with many small dots on the body, freshwater rays Polka Dot also has a genetically modified form at the front end, making it U-shaped instead of round. The price of each Polka Dot stingray is up to 100,000USD, equivalent to more than 2 billion VND.

### **Black King Kong shrimp or BKK shrimp**

This is the most expensive shrimp in the world because they are rare, difficult to breed and require sophisticated farming procedures. Each shrimp is 2.5 - 3cm in length, with prices ranging from 60 - 100 USD (about 1.2 - 2.1 million VND). However, this type of shrimp was sold to a collector in Japan for \$ 1,000 per child (nearly VND 20 million) in 2009.

#### **Australian Perch fish**

This rare fish is only found in the waters of Australia, it is very difficult to catch, so they are quite expensive to 5,000 USD. Flat-headed Perch fish has quite eye-catching colors with red stems and orange stripes and orange fins.

#### **Bladefin Basslet fish**

This fish has a long white salt fin on its back like a horn. This is the most special feature of the Bladefin Basslet fish, the longer the fin, the higher the fish will cost. This fish lives mainly in deepwater coral reefs in the Caribbean and sells for \$ 10,000 each.
