

The most experienced mobile app 2018

2018 has just passed a few days, and now is the right time for us to discuss whether there are any Appstore or Playstore apps worth the most experience in the past year.

The year 2018 has just passed a few days, and now is the right time for us to discuss whether there are Appstore or Playstore apps worth the most experience, let's see which applications are !

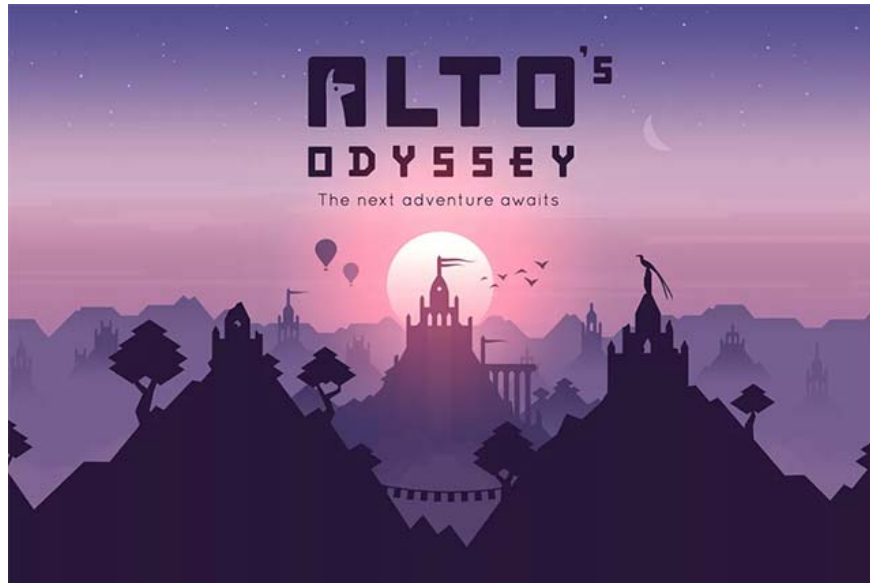

Adobe Premiere Rush CC

You will hardly find a mobile application today that helps support better video editing than Adobe Premiere Rush, I dare say so! This application allows users to easily handle multiple clips, as well as allow you to access the full range of features that can only be found on a professional video editor that works with your PC, But importantly, everything is still arranged, customized easily. In addition, another interesting point that we also need to mention on Adobe Premiere Rush CC is the ability to synchronize between the application on the PC and the mobile version. This means you can edit videos that are unfinished on your PC using a mobile application anytime, anywhere.

Download Adobe Premiere Rush CC for free on the iOS App Store

Alto's Odyssey

2018 saw the return of one of the most iconic monuments in the world of mobile games, namely Alto's Odyssey. The new version of this cult-like title game is the sequel to the 2015 adventure that is highly anticipated. Although waiting for a long time, Alto's Odyssey fans are still excited about this version, and Alto's Odyssey does not meet fans' expectations. In the 2018 version, the characters are still retained, but there are new tricks and management features to help complete the missions in the game. It can be said that this is a very successful update of Alto's Odyssey because the advantages of the original are still maintained, while the newly added elements also catch up very well, making it easy for players to get acquainted. without taking too much time.

Alto's Odyssey is being discounted, only \$ 0.99 on the iOS App Store and free on Android Google Play.

Asphalt 9 Legends

Yes, a familiar name is always a measure of performance of smartphones, Asphalt 9 Legends. It is hard to find a game that brings a good car like Asphalt 9 Legends on a mobile phone at the present time. With simple gameplay, easy to get used, the graphics are very smooth, beautiful, along with the large player community Asphalt 9 Legends can give you really professional entertainment moments right on the small phone mine.

Download Asphalt 9 Legends for free on iOS App Store and Android Google Play.

Donut County

An additional game appears in our list. A cute entertainment game. Your task is to move the black hole on the screen with your hand to 'eat' everything in sight and pass each level. But you will quickly realize there are many interesting nuances from the game other than simply dragging your fingers around the screen. Simple, to love, but can be addictive, that's all we can find in Donut County.

Donut County currently costs \$ 4.99 on the iOS App Store.

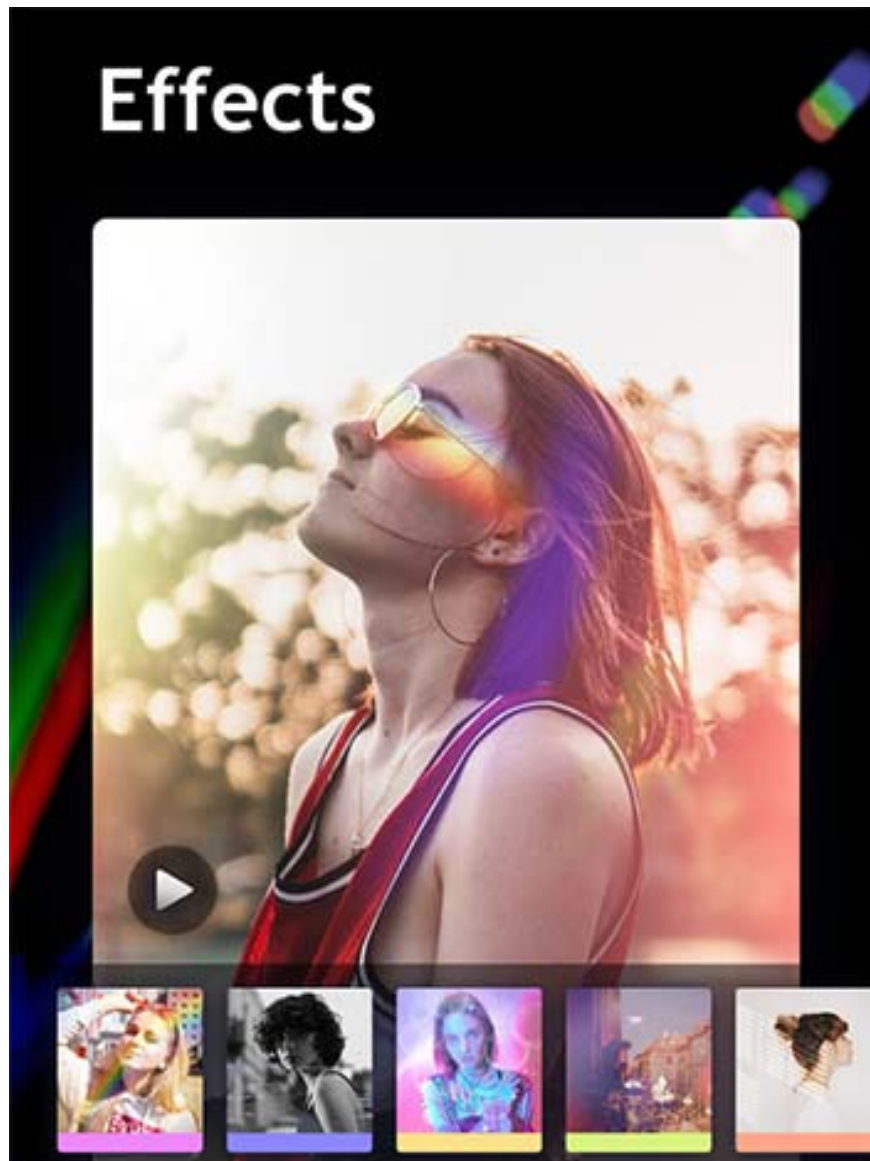

Enlight Pixaloop

This is an interesting photography application that allows you to add motion to specific areas in a photo while keeping the rest of the image in a static state. It takes a bit of practice to let you understand how to use the features in the application so that it works, but once mastered, the result is mesmerizing photos that will be created.

Download Enlight Pixaloop for free on the iOS App Store.

Filto

Do you want your Instagram videos to be more professional?Filtero can help you do this.Filto video editor allows you to apply a variety of different filters and effects to your clips with simple, intuitive controls.You can choose between subtle filters or interesting effects for each specific detail in the video, along with vibrant colors and flashing light.Once you've tweaked the effect for your video, it's easy to edit the size of your video according to your preferred frame rate, regardless of whether the video is shot horizontally or vertically.

Download Filto video editor for free on iOS App Store.

Fortnite

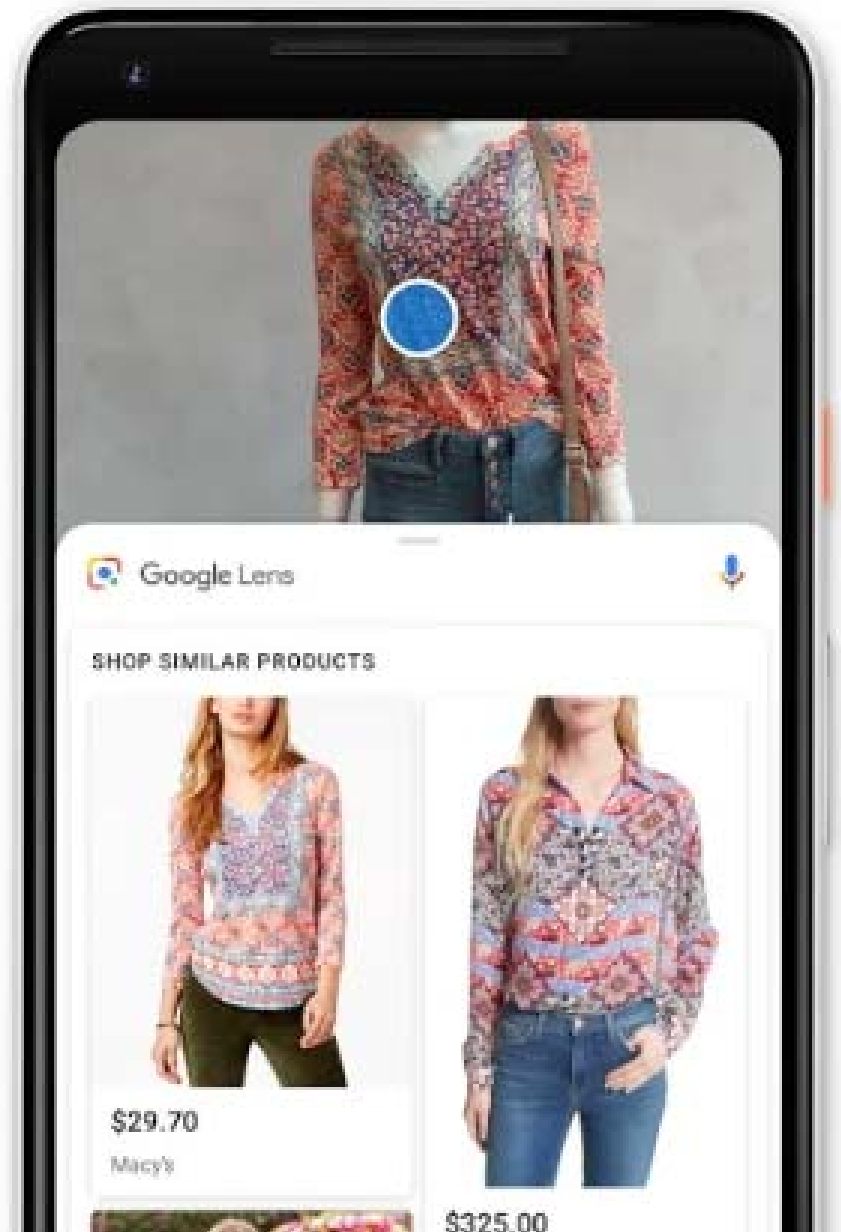

Fortnite was a game that had a great success before Epic released the iOS version of the royale battle game, earning \$ 100 million in just the first 90 days after its release. Fortnite mobile is very large, it is understandable because the current PC version of this game also weighs 23.2GB. However, large capacity means that features, graphics and especially gameplay will not be cut too much.

Fortnite takes players to the modern earth scene, with the sudden emergence of a worldwide storm causing 98% of the world's population to disappear, and zombie-like creatures attacking the remnant. Fortnite has up to four cooperative players to do different tasks on random maps to gather resources, build defensive structures around targets to help fight the storm and protect them. Survivors, and build weapons and traps to battle the waves of attacking Zombie creatures.

Fortnite can be downloaded for free on iOS App Store and Epic Games for Android version.

Google Lens

Google Lens is a mobile application that identifies images developed by Google. It is designed to provide relevant information with visual analysis. Although this application was introduced in 2017 as part of Google Photos, by 2018, Google Lens was released as a standalone application in June. Specifically, this tool will use the camera on your smartphone to get there, allowing you to find information about everything around, such as finding information about plants, animals, locations, buildings, history or anything else. In addition, Google Lens also allows users to scan text to view translations, add events to their calendar or simply copy and paste the necessary information quickly.

Download Google Lens for free on Android Google Play.

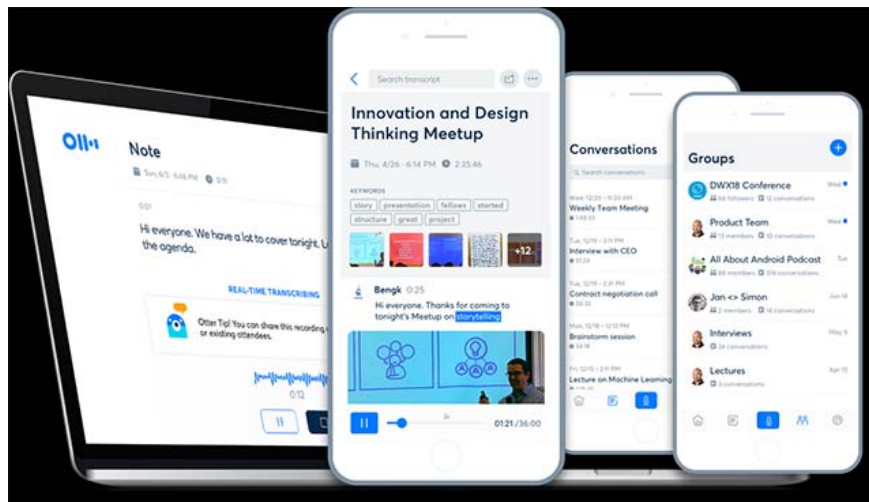

Google News

The need for fast, accurate information updates is very legitimate in the digital age today, and Google News will help you fulfill this need. Google News is a news aggregator and application developed by Google. It presents a continuous stream, which can customize articles organized from thousands of different publishers and magazines around the world. Google news creates a balance between the need for personal information and accuracy, giving you the opportunity to delve into anything you care about, and show you the different views of a specific information.

Download Google News for free on iOS App Store and Android Google Play.

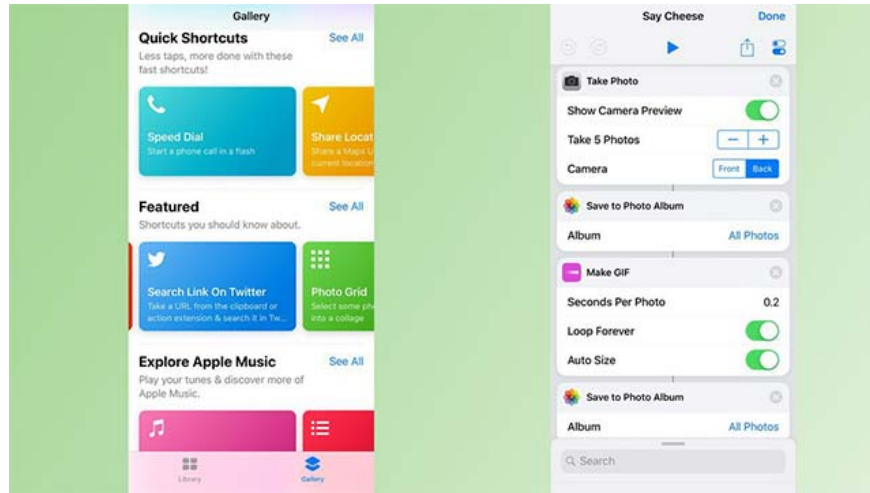

Otter Voice Notes

Otter Voice Notes is an application that uses AI to learn your voice and create amazingly accurate copies. You can also add your own notes and photos to easily review the meetings and conversations that have been made. Overall, this application was created to help entrepreneurs, journalists and students focus more and collaborate more effectively in meetings, interviews, lectures, anywhere and any conference. Which phone is important. Otter Voice Notes has been voted as one of the best apps of 2018 on Google Play.

Download Otter Voice Notes for free on iOS App Store and Android Google Play.

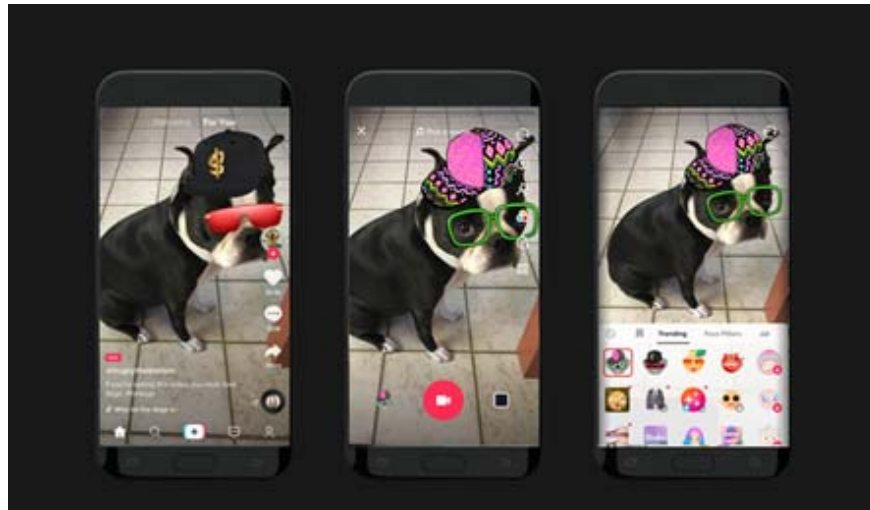

Shortcuts

While it may not be the most user-friendly application Apple has ever released, the Shortcut (formerly Workflow) marks another important milestone in Siri's development. The application was released as part of iOS 12, making Siri compatible with more applications. Shortcuts allow you to create custom Siri commands for content you want to use on applications every day. In addition, if there is a higher requirement, you can create a single command to automate actions on specific applications.

TikTok

Yes, a name is storming the app stores, possessing a lot of advertising hours on YouTube. TikTok is not a new application, but still maintains its hot status for many years. TikTok has always been the entertainment app topping the rankings in App Store and Google Play for many years. Today, it is the leading short video platform in Asia, and the world's fastest growing app, with the largest music video community worldwide. TikTok mobile application allows users to watch music clips, record short clips and edit them, and add special effects to clips. To

create your own music video, the user first selects from the background music list. Then the app records them while they do whatever they want in sixty seconds. The playlist of Tik Tok contains many musical styles, including hip-hop and electronic. This application has a huge and profound influence on current social networking sites, many of which are famous for TikTok.
