

The mysterious 'ghost ship' was discovered on Lake Superior

Let's explore the mystery of the ghost ship discovered on Lake Superior!

When Jason Asselin and a friend are picking up autumn leaves in the Upper Michigan Peninsula. When stopping at Lake Superior, USA to capture the scene of the sparkling rainbow on the lake, I encountered a very spooky thing.

" We were watching the rainbow when suddenly we saw a strange object. I zoomed in a bigger lens but still couldn't believe what my eyes were seeing , " said Asselin.

There are many comments about videos that Asselin posted on Youtube. People call it a " *ghost ship* ", an illusion and an optical illusion, but most of them think that this phenomenon cannot be explained.

Video: "A ghost ship appeared on Lake Superior was posted on YouTube by Jason Asselin.

Asselin guesses that object is about 3.2 km away from the rainbow to the right and attracts everyone's attention.

" It really shouldn't be there, I've seen many ships and it doesn't look like any boat. I've also been to Lake Superior before but I've never seen it , " said Asselin.

Asselin said he was not afraid, only feeling a little confused. His friend agreed that he also saw the object but could not explain it.

" He thinks this is a strange experience and does not belong to this world, " Asselin said.

They watched the object for a while when the sun began to set, the "ghost ship" quickly had a chance to disappear. "When we looked back, there was nothing. It was gone," said Asselin.

Whatever the actual object is, it is interesting to imagine it as a friendly pirate team that appeared on Halloween's occasion.

Asselin said: *" I have seen many strange things before - but this is one of my best experiences ."*
