

The new version of Swift 7 is the thinnest laptop in the world today

Acer has introduced a new version of the Swift 7 laptop with a 10 mm drop in shoe size, only 4.27 mm in ultra-thin trim screen, 15% overall reduction compared to the old version.

At the IFA 2018 event, one of the largest technology exhibitions in the world, which took place from August 31 - September 5, 2018, Acer introduced the new version of the Swift 7 laptop with a 10 mm reduction in shoes. The ultra-thin border design screen is only 4.27mm, the overall size is reduced by 15% compared to the old version. And Acer also confirmed that Swift 7 is the thinnest laptop in the world today.

The new version of Swift 7 has a front screen / area ratio of 92%, and its weight is only about 1kg.

Acer will equip Swift 7 with the Intel Core i7 8th generation processor. It is not clear whether Acer has chosen to completely remove the webcam on Swift 7 or hide it under the keyboard or under the same screen as the X Matebook. Huawei's Pro.

Swift 7's other specifications, price and shelf price have yet to be announced by Acer.
