

The school is closed because of COVID-19, Japanese elementary school students hold a closing ceremony in Minecraft

Instead of being held at school, all students can attend the ceremony in Minecraft - an extremely popular open world game for elementary students.

While the COVID-19 epidemic is still spreading at a rapid pace, elementary and junior high schools in Japan have been closed for two weeks following Prime Minister Abe Shinzo's call to strengthen the epidemic prevention measures. .

Typically, the end of March and the beginning of April is also the time when Japanese schools finish the school year. However, due to the impact of the COVID-19 epidemic, the closure of schools has made many students in this country miss the closing ceremony at the end of the school year. Many students have expressed sadness and regret, when the closing ceremony is always one of the most memorable memories of the school life of any student.
