1. 10 extremely useful tips to help you identify clothing quality
2. 17 important survival skills you need to know to save yourself
3. 10 tips "can't be lost" because it's too useful you may not know

Sometimes we can buy a scarf or a new shirt, but manufacturers often attach their brand name to the collar to advertise their brand, but these shirt labels when exposed to the skin, causing itching, even for people with sensitive skin who may have redness, burning pain, and sweating when working outdoors, tens of thousands of times uncomfortable.

If you want to remove the discomfort from this label, you can apply the following cut-off tips. There is no need to bring it to the store, nor to tear it.

## **Preparation tools:**

1. Clothes, pants or towels
2. Drag
3. Tweezers

## **How to do the following:**

### **Step 1:**

Select the shirt that you want to remove, then use scissors to cut off the leaflets, use light scissors to cut only the first part. After that, continue using scissors to slice the next pointed eyes. You should note, when cutting this label you need to be nice and skillful, do not cut too much or cut off the label right from the first time, so you probably cut the shirt right.

**Step 2:**

After cutting all your eyes, you hold the label and jerk it hard to completely break it from your shirt.

**Step 3:**

After pulling the label, use tweezers to remove the parts that are left over on the shirt so that the shirt is neat and neat.

And below is the product after removing the shirt. Make sure the shirt after cutting will make you comfortable to wear and operate outside.

With just a few simple steps at home, you can take away this unpleasant label. So when you encounter similar cases on your shirt or pants, you can apply this simple tip immediately.

I wish you all success!
