The trend of lipstick, lipstick cream is gradually becoming popular on beauty websites and is used by many women especially in autumn and winter. Lipsticks help to stick on the lips longer, cover the defects on the lips such as dark lips or dark lip edging to help women always freshest.

However, the lipstick requires a very high meticulous special with full lipstick type, just need a little care, the lipstick color can be smudged or the lipstick can't cover the lips.

To make a good lipstick, you need to take the following steps:

Step 1:

Moisten your lips, this is a very important step for you to take the next exfoliation step. If your lips are dry, exfoliating is very difficult, which can cause irritation, bleeding, .

Step 2:

Removing dead skin for the lips, this is a very necessary thing when you hit the lipstick, because if your lips have dead skin, when brushing the lip on the lips will peel off and lose beauty. When exfoliating your lips, you can use specialized lip exfoliants or make homemade handmade exfoliants for use. Handmade lip exfoliating ingredients are required: sugar combined with honey, toothpaste, . The exfoliation should be done 1-2 times a week or whenever your lips have scales dead skin is flaky and less smooth.

Step 3:

After exfoliating your lips, you need to use lip balm to moisturize and soften your lips. If you don't want lip balm to make your lips shine when you are lipstick, then you can use a tissue to wipe away the moisturizer, this just ensures the moisture to the lips, but when the lipstick does not get glossy too. However, with dry lips, you should keep it so that your lips are dry

Step 4:

Using concealer, it will help you to conceal the imperfections on your lips, while helping to color lipstick after beating up to a standard and more beautiful color.

Step 5:

1. With full lipstick brush you need to draw the border for the lips. This step will help your lips become more neat, clean and sharp. Look for a border pen similar to lipstick, you can easily create a solid base when using lipstick. Colors will be much richer and more intense when you apply this method.

1. With lipstick lipstick style: first you will move a lipstick inside the lips, stretching from the lip edge of the lips to the lips of the other side, then lightly pout. If you want a darker lipstick and a wider lipstick, you continue to do the above operation, then use your hands to spot the stain so that the lipstick will not reveal the lip and lips.

Note : In the case of an unlucky lipstick, do not rush to use tissue paper because it will make the lipstick more clear. Instead, use a palm tree with a foundation or concealer to cover the lipstick outside the lips
