

The secret to choosing a bath heating lamp is suitable for the room area

The selection of bath heating lamps in accordance with the room area is extremely necessary. Please refer to the article below to find useful information to help you choose the right heating lamp

Bath heating lamps are useful for every family in the winter. Heating lamps will help you get a warm space to relax after a hard day's work.

To choose the right heating lamp, in addition to the elements of: Brand, style, price . the area of ??the bathroom space should also be noticed. A lamp that matches the bathroom area will help them maximize their heating. Find out the following article to know the secret of choosing the most suitable heating lamp for your family's bathroom.

I. Why should I choose a heating lamp suitable for the bathroom area?

If you choose an inappropriate bathroom heating lamp, you will likely encounter situations such as:

1. Large bathroom with heating lamps have a small capacity. The amount of heat generated will not be enough to warm the surrounding space as desired.
2. The bathroom is too small and the lamp has a large capacity. Most likely you will "burn" when bathing.

Also choosing unreasonable lights will cause power losses, causing unnecessary waste.

II. The secret of choosing a heating lamp is suitable for the bathroom area

1. With an area of ??about 4 - 5m²

For modest bathrooms with an area of ??about 4 to 5m², a 2-bulb bath heating lamp will be the optimal choice for you.

These lamps operate at a capacity of about 2 x 275W for instant warming effect. Copper-plated lamps do not glare when used. Besides, each control ball has its own control switch.

Refer to some models of 2-ball heating lamps that are trusted by many people

1. Heating bath lights 2 balls Tiross TS9291 - Price: 690,000 VND
2. Moletty MLT-2102TH bathroom heating lamp - Price: 990,000 VND
3. Heating lamp Heizen HE2BR 2 bathroom balls - Price: 1,650,000 VND

2. With an area of ??about 6 - 7m²

For bathrooms with an area of ??6 - 7m², you should choose a heating lamp with 3 bulbs. These lamps operate at a capacity of about 3 x 275W, enabling fast heating space. The lamp uses infrared light, without ultraviolet purple environmentally friendly. The life of these bulbs is up to 6,000 hours.

Refer to some models of 3-ball heating lamps that are trusted by many people

1. Hichiko bathroom heating lamp HC-031BG - Price: 650,000 VND
2. Sunhouse SHD3823 bath heating lamp - Price: 1,295,000 VND
3. Bath light Moletty M-03TH - Price: 679,000 VND

3. With an area of 8 - 10m²

In this case, the 4-ball bath heating lamp will be an ideal suggestion. These lamps also have a separate switch so you can choose to turn on the ball number as you like, giving you convenience when using it.

Refer to some 4-bulb heating samples

1. Bath heating lamp - Hans infrared heating lamp with 4 bulbs (negative type) - Price: 1,050,000 VND
2. Kottmann bathroom heating lamp 4 ball K4B-G - Price: 1,050,000 VND
