

The series of images is confusing and makes anyone look at you confused

There is no need for photoshop, just with the right perspective, causing confusion for others, the photos below are enough to make viewers feel confused, not understanding why everything is arranged in such a way.

There is no need for photoshop, just with the right perspective, causing confusion for others, the photos below are enough to make viewers feel confused, not understanding why everything is arranged in such a way. Certainly many viewers have to look a few times to understand their true nature.
