1. The impressive moment when the bullet rushed out of the barrel
2. See the world's largest pneumatic cannon firing "gas bullets" like movies

This special gun is the invention of Yi-Fei Chen, a Taiwanese designer. Chen said, she created a tear gun after arguing with the teacher. While angry, Chen came up with the idea of ??a special gun that could produce bullets from tears and shot out to be angry, of course the gun was not quite harmful, quite safe.

In order to use this gun, users must wear a special silicon conductor on their face to catch the tears flowing. The tears will quickly freeze to form a bullet in a dry ice container. After that, the bullet of water will be loaded and fired.

Check out the video below for details on the construction of this special tear gun.
