

The ThinkPad X1 Carbon touchscreen costs more than 49 million

Currently, users in Vietnam can order ThinkPad X1 Carbon Touch on its website or other retail channels.

Currently, users in Vietnam can order ThinkPad X1 Carbon Touch on its website or other retail channels.

Model that Lenovo ordered is equipped with Core i7 processor, 8 GB RAM and 256 GB SSD drive. It runs Windows 8 Pro and has a specific price of about 49.3 million. Users can choose higher or lower configurations to purchase the desired product.

The ThinkPad X1 Carbon Touch is a touch support of up to 10 fingers at the same time.

The ThinkPad X1 Carbon Touch version sold in Vietnam has a 14-inch HD + 1600 x 900 pixel screen, recognizing 10 touch fingers at the same time. The product weighs 1.54 kg and is only 20.8 mm thick due to its carbon fiber housing.

In terms of configuration, customers can choose one of the Core i5 or i7 processors. It supports Dolby Home Theater v4 audio technology. Besides, the ThinkPad X1 Carbon Touch also has a built-in HD camera that

recognizes faces and two microphones to help users make video calls. The product has a version that supports 3G connectivity and the battery runs for a maximum of 8 hours.

It uses a 14 inch screen with a resolution of 1,600 x 900 pixels and many security features.

Lenovo's new Ultrabook uses a 65-millimeter 65-millimeter charger and weighs only 235 grams. The charger is 53% lighter than conventional models, and has fast charging capability thanks to RapidCharge technology. In addition to its compact size, this model also has many security and management features such as fingerprint reader, Trusted Platform Module technology or BIOS encryption.
