## **Top tips for playing online bingo**

### **It's all in the timing**

When you can play will depend on your schedule but the best way to increase your chances of a win is to not play during peak times. Playing when everyone else is online means that there are more people who could win instead of you. Whereas, if you play outside of these peak hours, the pool of people is smaller and therefore you're more likely to come out on top.

The peak times are in the evenings and weekends so if you can get a game in mid morning, you're more likely to have a chance of a win.

### **Budget wisely**

Like with anything in life, staying within your budget is the only way to play and have a good time. There's no point playing outside your means, even if you think you're going to win. This will put too much pressure on the game and means you won't have a good time.

And playing bingo is all about having fun at the end of the day! You can set yourself limits online or on the app to ensure that you don't overspend.

### **Pick your cards well**

Of course, bingo cards are randomly generated but there are some things you can do to increase your winning chances. Having multiple cards on the go at once means that you've automatically got a bigger chance at winning.

However, you've got to make sure you're keeping an eye on all of them. There's nothing more frustrating than finding out too late that you had the called number on your card all along! Start with one or two cards at a time until you feel comfortable. Then, you can think about adding another one to your arsenal to increase your chances.

Some sites will also have the option to automatically cross out a number if you have it. So, if you're worried you might miss a number or your reaction times aren't that quick, this can really help your game.

Playing bingo online is a great way to relax and unwind. You can play your favourite game whilst also having the chance to tuck an extra bit of cash in your pocket. Making sure you follow these helpful hints and tips can

not only increase your chances of a win, they can make sure you're having the best time while you play.
