How to use the Flows Music application

Users click on the link below to install the Flows Music application on Windows 10.

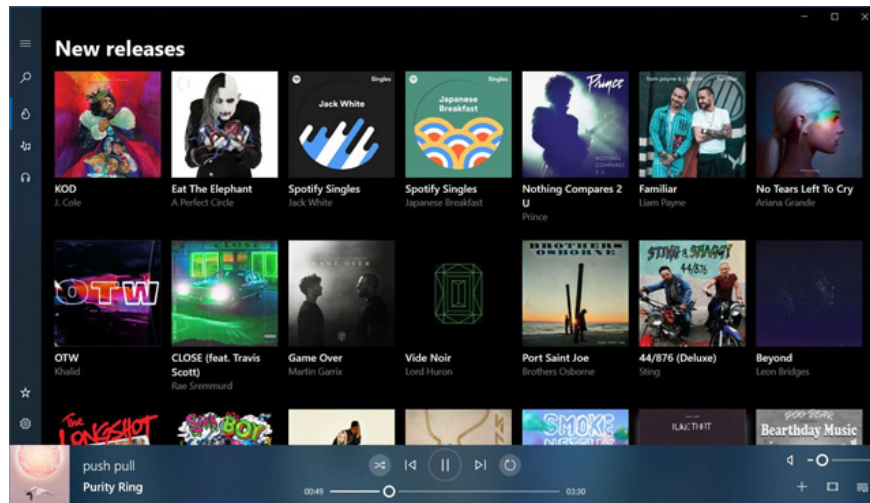

1. Download the Flows Music Windows application

Then launch the application and will see the main interface of Flows Music. The interface of Music Flows is divided into different categories with different content.

1. New Releases

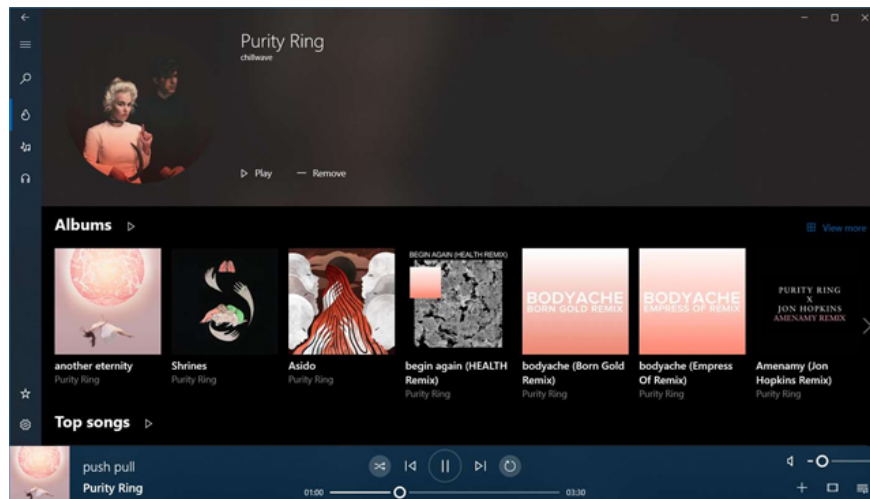

You will have all the newly updated songs in this interface. Press the Play button to play or press the plus sign to add to your album. Click on the album cover to view the playlist and select the song you want to play.

If you want to mark the song when you need to hear, press the plus button. The song will be saved in the song section. Or it can be marked at the control bar. With the video song, click the movie roll icon to view it.

2. My Music

Manage songs, albums, track artists. To unsubscribe press the minus sign button.

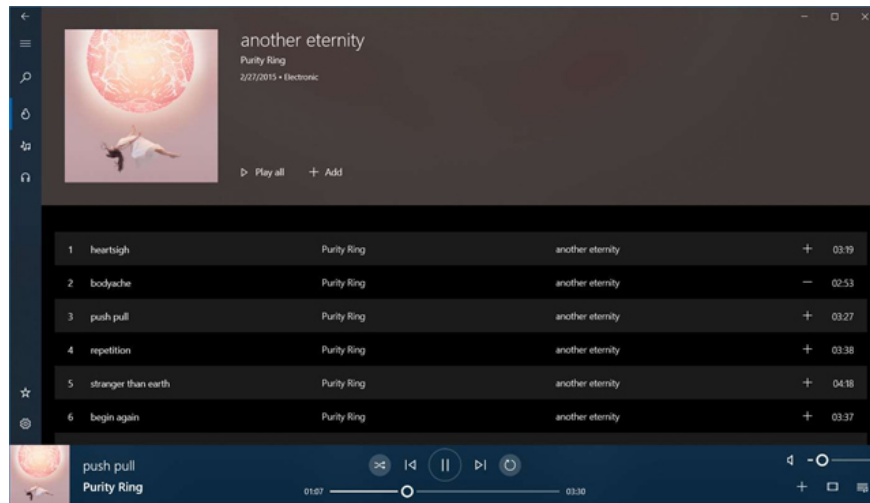

3. Search

Because Flows Music only updates songs in the US area, you use the search function to browse and open other songs, albums and playlists available on Spotify in other areas. Enter keywords in the search bar and will display the results. Click View more to see more detailed content.

4. Now Playing

List the songs currently in the album, accessible from the control bar by pressing the playlist icon.

5. Settings

The theme color can be changed as bright or dark.
