What is the last name of Android L? Perhaps only Google knows, but if the company goes silent, many people will probably be rumored from a Google artwork provider, Giovanni Calabrese, who is bewildered by the name he has just revealed.

**What is the last name of Android L? Perhaps only Google knows, but if the company goes silent, many people will probably be rumored from a Google artwork provider, Giovanni Calabrese, who is bewildered by the name he has just revealed.**

*Giovanni Calabrese*, the head of sculpting company *Themendous*, has designed sculptures of Android icons for Google in the past, saying he is about to make a statue that represents the company's new operating system. name is Licorice (licorice *candy* ) instead of *Lollipop*.

Google operating system icons

" *I never had a special hobby for licorice candies (Licorice), but I would probably have to taste this,* " a message that *Giovanni Calabrese* wrote before being invited to Google's headquarters for work. .

The sculptor also wrote that before boarding the plane to fly to Google's headquarters he was 'asked' by the Tourism Security Administration to explain why he had so many boxes of licorice candy in his bag. but Giovanni only answered roughly that he brought it to his friends.

Android L is licorice candy?

It is hard to believe that *Licorice will be the official name of Android L* and at risk of *Giovanni Calabrese* trying to deceive people. However, with Google, nothing is unlikely.
