

The world's lightest VAIO TT laptop

Sony has just introduced the thinnest and lightest laptop PC VAIO TT currently equipped with a Blu-ray drive. VAIO TT weighs less than 1kg and is 2.54cm thin.

Sony has just introduced the thinnest and lightest laptop PC VAIO TT currently equipped with a Blu-ray drive. VAIO TT weighs less than 1kg and is 2.54cm thin.

It features an 11.1-inch XBRITE-DuraView LCD screen, displaying 1280x768 pixels that allows viewing high-definition Blu-ray movies. The case of the device is made of lightweight carbon fiber.

Models of the VAIO TT series include an Intel Core 2 Duo SU9300 processor, support for HDMI output, Bluetooth connectivity, fingerprint recognition and noise-canceling headphones. In addition, the VAIO TT is also equipped with the WWAN standard that allows connection to Sprint's broadband telecommunications network. Users can choose 128GB solid state drive (SSD) with RAID mode setting.
