

# The world's hardest puzzles solved in the shortest time

Riddles are always interesting to people, providing a combination of fun and challenge. Here are the world's hardest riddles that we solved in record time.

**Puzzles** have always fascinated people, offering a combination of fun and challenge. From Rubik's Cubes to complex jigsaw puzzles, these brain teasers have become competitive sports. **Watching people solve these puzzles in record time is exciting and a testament to human ingenuity.**

In the world of competitive puzzle solving, some individuals have achieved incredible feats. These champions have developed their skills through countless hours of practice. But their stories are not just about quick thinking; they are also about dedication and passion for puzzles. This list highlights amazing puzzle solvers who have conquered their respective challenges at an incredible pace. From Max Park's lightning-fast Rubik's Cube solving to Shiyao Wang's Sudoku mastery, these puzzle solvers have achieved things most of us can only dream of. **Their achievements are not only impressive but also inspiring, showing that with focus and effort, we can overcome even the most difficult challenges.**

## Max Park and the Rubik's Cube

Max Park has made headlines in the world of speedcubing. On June 11, 2023, he set a new world record by solving a Rubik's Cube in just 3.13 seconds at Pride in Long Beach 2023. This was one of many achievements in his journey that began with using the Rubik's Cube as a therapeutic tool to overcome autism. Max's record-breaking Rubik's Cube solving process was captured on video, highlighting his fast and precise movements. Known for his consistent performance, he has competed in numerous competitions and broken numerous records. Max Park's progress is the result of countless hours of practice and a deep passion for the puzzle.

## **Shiyao Wang - Sudoku prodigy**

Shiyao Wang has made a significant mark in the Sudoku community with her impressive speed and accuracy. At the 2018 World Sudoku Championship, 14-year-old Shiyao set a new world record by solving an extremely difficult Sudoku puzzle in just 54.44 seconds. This remarkable achievement highlighted her exceptional skills and dedication to mastering the game, cementing her reputation as one of the top Sudoku solvers globally.

Shiyao's methodical approach and ability to stay calm under pressure are the keys to her success. Her record-breaking Sudoku achievement in 2021 is a testament to her deep understanding of Sudoku puzzles and her relentless pursuit of excellence. Shiyao continues to inspire and influence aspiring Sudoku enthusiasts by sharing her techniques and strategies to help others improve their Sudoku solving skills.

## **Dan Feyer – Crossword Champion**

Dan Feyer, one of the fastest crossword solvers in the United States, has built his reputation through consistently solving crosswords at high speed. He began his competitive journey by winning the B Division of the 2009 American Crossword, following his C Division win in 2008.

Dan's exceptional ability to solve crosswords quickly and accurately comes from extensive practice, solving an average of 20-25 crosswords per day. Dan's speed-solving method involves using the letters already filled in in the grid to guide his brain to the correct word. He rarely uses outside help, preferring to return to challenging crosswords later to gain a fresh perspective. Dan's impressive record and methodical techniques continue to inspire and influence crossword enthusiasts around the world.

## **Alejandro Clemente León - World Puzzle Champion**

Alejandro Clemente León is a puzzle solver known for his incredible speed and accuracy. At the 2023 World Jigsaw Puzzle Championship, Alejandro set a remarkable record by completing a 500-piece puzzle in just 32 minutes and 41 seconds.

His speed puzzle journey began in 2019 when he entered a pair puzzle competition with his father, quickly rising through the ranks to become a top competitor. Alejandro's approach to puzzle solving is systematic and strategic. He begins by sorting the pieces by color and shape, assembling the puzzle with a focus on efficiency and

accuracy. His success is the result of dedicated practice and a passion for the art of puzzle solving. Beyond his personal achievements, Alejandro's love for puzzles extends to sharing his skills and inspiring others in the puzzle community, making him a respected figure in the world of jigsaw puzzles.

## **Lim Kai Yi – The record-breaking puzzle prodigy**

Lim Kai Yi, a prodigious talent from Butterworth, Malaysia, has broken over 60 world records, demonstrating his versatility and skill in various feats. Some of his most notable achievements include the fastest time to build a 15-cup pyramid, completed in just 2.40 seconds. Lim Kai Yi's journey began at a young age when he developed a strong passion for solving puzzles and breaking records.

Lim's success comes from his unique approach and relentless practice. He emphasizes creativity and finding unconventional ways to achieve his goals rather than following conventional techniques. His record-breaking performances, including assembling Mr. Potato Head in 5.43 seconds, highlight his exceptional ability and dedication to his craft. Lim continues to inspire the puzzle community with his ambition to break 1,000 records in his lifetime, motivating others to think outside the box and pursue their dreams with determination.
