

There is a free VPN application ProtonVPN on iOS, invite download and experience

Today ProtonVPN, the famous free VPN application has officially been released on the iOS platform. Previously, Windows and macOS versions were also released in July.

ProtonVPN, the famous free VPN application was officially released on iOS platform, now users can download and experience. Previously, Windows and macOS versions were also released in July.

ProtonVPN is Proton's free VPN service that provides unlimited bandwidth and some free servers for users. In addition, ProtonVPN also provides subscription packages to help users have more geographical options.

With ProtonVPN, users can be assured of the security of personal information because data will be stored by an intermediate server that is not stored, and can freely view content limited by geography and country on the applications like YouTube, Facebook .
