This is one of the largest companies in the world, its annual revenue is 270 billion USD (more than Vietnam GDP in 2017). Although using only 1/100 Samsung's manpower, the money is equal to theirs. But almost very few people know about the existence of this secret company.

This is one of the largest companies in the world, its annual revenue is 270 billion USD (more than Vietnam GDP in 2017). Although using only 1/100 Samsung's manpower, the money is equal to theirs. But almost very few people know about the existence of this secret company.

This quirky company is called Vitol, it is not a corporation but in the world only 8 global companies are bigger than it and all 8 companies are very famous or state-owned. Vitol's headquarters are located in Rotterdam, the Netherlands and Geneva, Switzerland, and have representative offices in more than 30 countries.

This is not part of the state that disguises itself as a company and it is not a well-known brand. Although owning less than 5,000 employees, equal to 1/100 employees compared to Samsung, its revenue is nearly equal to Samsung corporation doing business in more than 24 industries. Vitol is not traded on the stock market.

But the money this secret company earned will certainly make anyone startled, \$ 270 billion a year, more than Apple, Toyota, Microsoft, JP Morgan and other famous brands you know. .

Although Vitol is the largest independent energy trading company in the world, Vitol is quite tight-lipped.

In addition to direct trading of many resources, Vitol also controls a lot of world market prices because they have more than 17 million meters of storage to store a variety of fuels such as coal, natural gas, oil . They even helped ISIS sell oil to the United States. In other words, Vitol helps resource-rich countries convert national natural assets into cash. That means they are more geopolitical than Apple or Samsung.
