3. See who is following you on Instagram, Facebook, Twitter and other social networks

2. Snapchat

1. Snapchat for iOS
2. Snapchat for Android

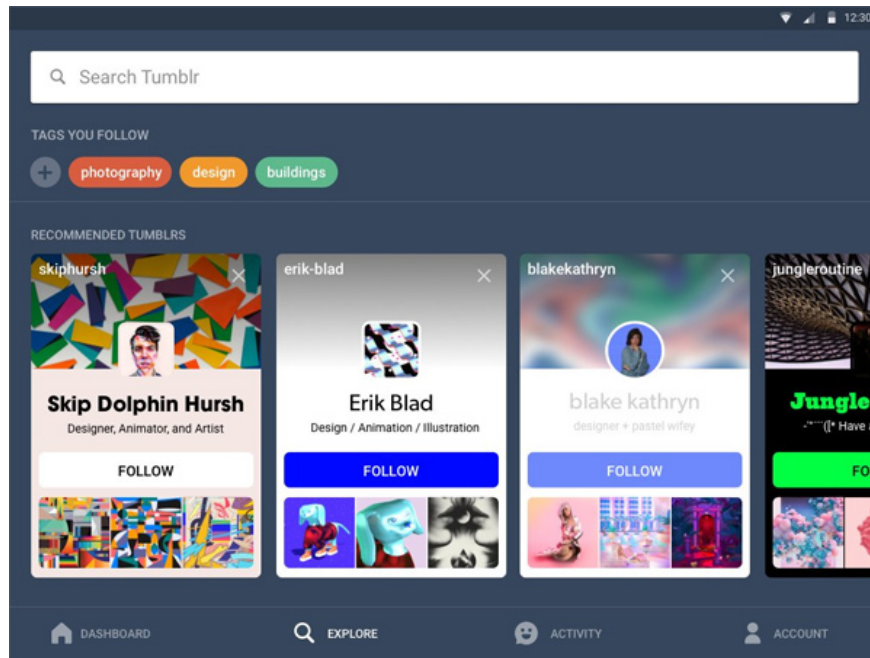

Snapchat is a social network that allows users to share videos and images with messages to friends and people. In particular, Snapchat features Stories to help users share photos and videos within 24 hours, then everything will disappear automatically. Other Snapchat competitors such as Facebook, Instagram, Google, etc. then borrowed this feature.

With the new version, this social network allows users to view and repost the posts on Stories. In addition, the application also has filters, interesting stickers for anyone who loves taking photos and supporting group chat.
