

Thinkpad SL410 appears in China

Lenovo Thinkpad SL410, the refreshed version of the SL400, with a sleeker and slimmer design, but only appeared in China

Lenovo Thinkpad SL410, the refreshed version of the SL400, has a sleeker and slimmer design, but has only recently appeared in China .

The Thinkpad SL410 has a newer design than the older Thinkpad notebooks for business people, especially compared to the SL400 senior, which has a more polished case while the body is a bit thinner. In addition, SL410 also uses 14.1-inch LED screen with resolution of 1366 x 768 pixels, 16: 9 ratio instead of 4: 3 screen on SL400.

The SL410 is equipped with a powerful configuration with Intel Core 2 Duo P8700 processor 2.54 GHz, 3GB RAM, HDD 250 hard drive, ATI Mobility Radeon HD 4570 graphics card. It has 4 USB ports, uses Li-battery. 6 cell ion and running Windows Vista operating system. But users can optionally configure the machine according

to their needs.

According to Clonedinchina, the Lenovo Thinkpad SL410 with the above configuration is currently selling in China for 5600 yuan, equivalent to 823 USD.

A member of China's Thinkbbs computer forum had the opportunity to own a Lenovo Thinkpad SL410 and take photos to share with interested users.

Glossier design than SL400.

The touchpad is also wider.

The SL410 still uses Core 2 Duo CPU and runs Windows Vista.

The layout of the pins is also more compact.

Use a 16: 9 LED screen, not "nostalgic" screen 4: 3 like SL400's.

New design case but indispensable traditional Thinkpad logo.

Discover a bit when opening the rear guard, showing the fan and RAM.

SIM phone slot.
