

ThinkPad Z60 - Lenovo's innovation

China Electronics Group has launched ThinkPad Z series notebooks with two models: Z60t and Z60m. In addition to the traditional black casing, the ThinkPad for the first time has added a 'Titanium' coat - expected to bring about a flow of life.

China Electronics Group has launched ThinkPad Z series notebooks with two models: Z60t and Z60m. In addition to the traditional black casing, the ThinkPad for the first time has a "Titanium" coat - expected to bring new life to "mobile" entrepreneurs.

ThinkPad Z60m.

The ThinkPad Z60m is equipped with a 15.4-inch screen, which allows information to be viewed at a 30% wider viewing angle than the current 15-inch XGA display. At a weight of 2.8 kg, the product uses Intel's 2.13 GHz Intel Pentium M processor; Microsoft Windows XP Home Edition or Professional operating system; 100 GB hard drive 5,400 rpm; 512 MB DDR SDRAM and can be upgraded to 2 GB; CD-RW / DVD Combo drive; Gigabit Ethernet Modem . The Z60m model uses Li-thium batteries with a continuous use of 4 to 6 hours.

At 28 mm thick and weighing only 2.1 kg, the **ThinkPad Z60t** is considered to be the lightest and thinnest laptop in the ThinkPad Z series. Equipped with a 14-inch screen, the Z60t enables information display with wide viewing angles.

ThinkPad Z60t.

Some of the Z60t's improved features include hotkeys and support for multiple ports so that users can easily upload photos and digital video clips.

Z60t uses Intel Pentium M 760 processor 2.0 GHz (2 MB L2 Cache, 533 MHz FSB); 512 MB DDR SDRAM can upgrade to 2 GB; 100 GB hard drive 5,400 rpm; CD-RW / DVD Combo drive; 3 USB 2.0 ports; Microsoft Windows XP Professional operating system . Model with Li-thium battery with continuous operation time of 4 hours.

Both products are sold globally since mid-October. The expected price of the Z60t is \$ 2,399 and the Z60m is \$ 2,499.

ThinkPad Z60m and Z60t at the launch in Singapore.

Continuing to inherit IBM's ThinkVantage technology since Lenovo acquired the US computer group's PC manufacturing division, the ThinkPad Z60 series is more robust in a simple and compact design. The two Z60t and Z60m models are equipped with the latest ThinkVantage Client Security Solution, allowing users to recover their passwords, while supporting disk encryption, updating password management software and system security system.

"Today, technology is constantly improved to meet the needs of users, especially those who often have to move, to be able to make good use of their time at work as well as at leisure, entertainment. The ThinkPad Z60 is considered a multi-functional notebook with high security and long battery life," said Howie Lau, Lenovo's general manager in Singapore.

Koh Kong Meng, Marketing Manager of Lenovo in South Asia and Southeast Asia, said the company will soon work with Vietnamese partners such as FPT, Digiland . to distribute its ThinkPad laptops. in this market.

After owning the computer manufacturing department from IBM, Lenovo has risen to become the world's third-largest personal computer manufacturing company with an annual turnover of approximately \$ 13 billion. The company currently has large research centers in Yamato (Japan), Beijing, Shanghai and Shenzhen (China), Raleigh, North Carolina (USA).
