How to download videos on Youku page with Youku downloader:

Step 1: Download Youku downloader

Note, when downloading Youku downloader, you need to choose the right version for your computer to download and install.

After you have successfully installed Youku downloader, proceed to open the program.

Step 2: Find Youku videos

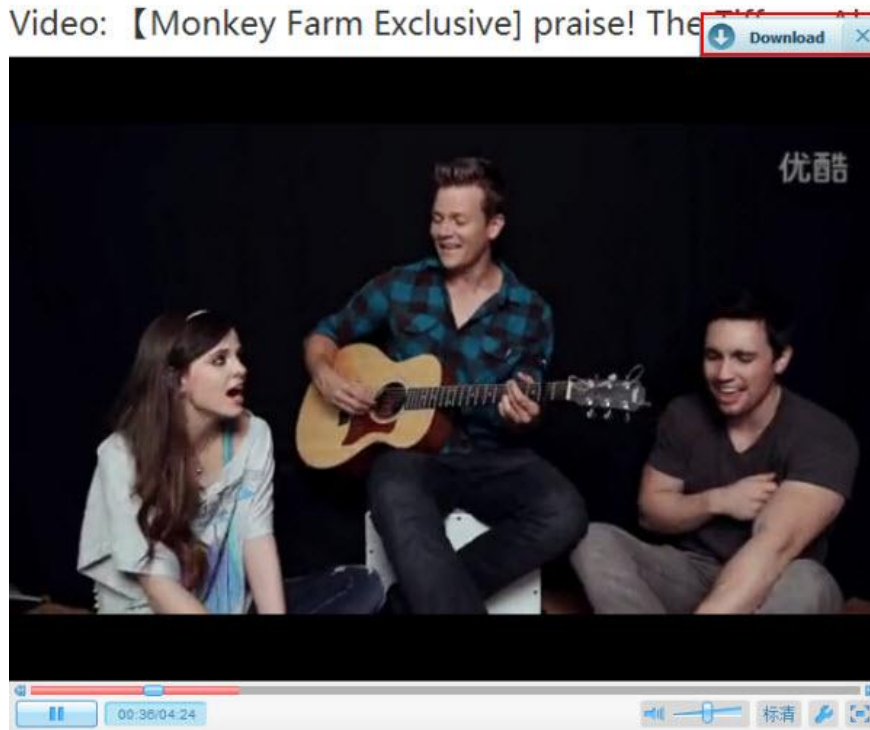

Open any browser on your computer. Note, the program only supports browsers like IE, Chrome, Firefox and Safari. Visit the Youku page and find the video you want to download.

Note:

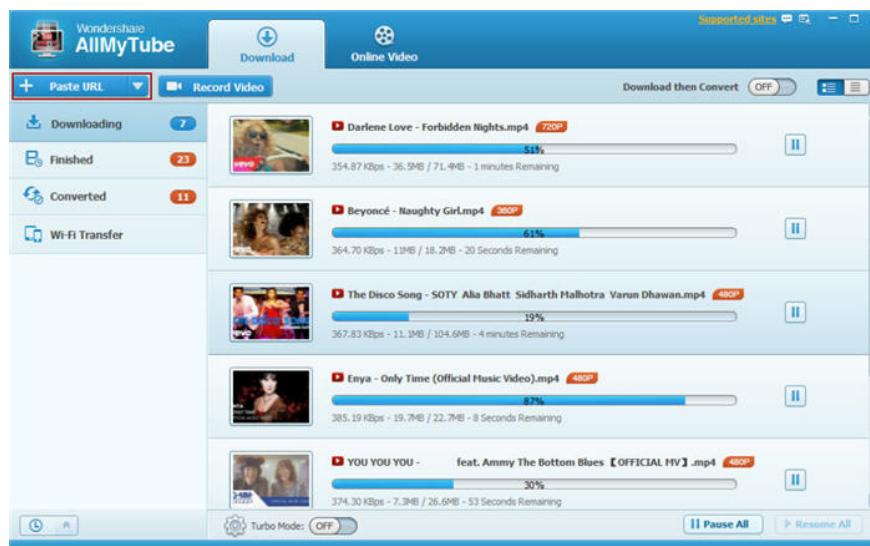

The Youku page will display the language as Chinese, so you need to translate the language into English (if you don't understand Chinese). To do this you can install the Goolge Translate add-on into your browser on your computer.

Step 3: Download Youku videos

Click on the video you want to download. Now the screen will display the Download button in the top right corner of the video interface window. Click the **Download** button and the program will download the video for you.

In addition to downloading videos faster, you can copy the URL of the video you want to download, paste it into the **Paste URL** frame, in addition you can see the video download process in detail.

Note:

When downloading videos related to copyright issues, you will see the message "Sorry, this video can only be streamed within Mainland China" on the screen. To fix this, you just need to download and install the add-on

called **Unlock Youku** in Chrome browser.

Good luck!
